New Business

Public comments on non-agenda items

NEXT TOWN BOARD MEETING – Wednesday, December 8, 2010

Disabled individuals who are in need of assistance in order to participate should contact the Town Clerk's Office at 439-4955 Ext. 1183. Advanced notice is requested.

Preliminary Sewer Fund Roll

Component of the
2011 Property Tax Warrant

Front Footage Charges Only
(Excludes Ad Valorem Taxes)

Public Hearing: November 23, 2010

Overview of Sewer Fund Charges and Taxes

Sewer Fund Revenues consist of property tax revenues collected in January, and from user fees and permits. The permits are issued as connections are made to district infrastructure. Historically, the tax revenues have consisted of three components:

- 1) Ad valorem taxes are intended to cover debt service costs and other operating costs for the district. This amount is based on the taxable assessed value of your property times the current annual tax rate.
- 2) Front footage charges, intended to cover debt service costs associated with federally funded lateral infrastructure, and also to fund the operating costs associated with maintaining the lines. This would include service department costs, and line repairs and upgrades.
- 3) Sewer usage charges, intended to fund the treatment of the wastewater discharge at the plant. Sewer charges are billed based on metered water usage (except for customers with private water, who pay a standard charge).

The funding plan for sewer districts in general can include some or all of these types of taxes and charges, as is necessary to fund the overall operations of the wastewater collection and treatment.

All residents within the district are charged an ad valorem tax. Affected properties may also be subject to front footage charges. Front footage charges were designed to impose a charge in proportion to the benefit received. It is considered a tax, in that it is levied based upon property attributes (front footage as per the legal deed).

DRAFT

**Town Board
November 10, 2010**

A regular meeting of the Town Board of the Town of Bethlehem was held on the above date at the Town Hall, 445 Delaware Avenue, Delmar, NY. The meeting was called to order by the Supervisor at 6:00PM.

PRESENT: Samuel Messina, Supervisor
Joann Dawson, Councilwoman
Mark Hennessey, Councilman
Mark Jordan, Councilman
Kyle Kotary, Councilman
Nanci Moquin, Town Clerk
James T. Potter, Esq., Town Attorney

Supervisor Messina called the meeting to order and lead the Pledge of Allegiance.

Supervisor Messina asked for a moment of silence for Fred Webster and his family. A former Town Board member and long time volunteer firefighter and very involved in the community.

PUBLIC COMMENTS ON AGENDA ITEMS

Norman Morand – 52 Carstead Dr. Slingerlands: He had looked at the information on the internet about the budget and it was dated 11/1/10. He said it was too small to read. He asked if the 1% raise for the employees was still in the budget. He didn't want to wait for the budget agenda item because then he would be out of order. He said last meeting Supervisor Messina disguised a part time employee as a seasonal employee. Only Councilman Hennessey brought that forward and Mr. Morand asked if it was a nepotism hire. Supervisor Messina said he thought Mr. Morand's questions would be answered during the budget presentation. The Supervisor this was not the time for public comment on the budget it was a time for the Board to do its job. There had already been a public hearing on the budget. Mr. Morand had raised an objection to the employee raise because social security benefits had not risen nor had a lot of others salaries. He asked why the Board had a public meeting when the Board would do as they liked anyways. Supervisor Messina said this was not a public hearing and Mr. Morand had been at a budget workshop meeting. Mr. Morand said he heard that there wouldn't be any more hiring and then last week they wanted to hire another person. He said the Board does exactly as it wants to do. They would probably adopt a budget with the 1% increase. Supervisor Messina said the Board has listened to the residents and worked out a budget that they feel is the best. He said a budget is a compromise and not for any one person. Mr. Morand asked if the Board used the million dollar surplus they had in the water and sewer to reduce the increase. Supervisor Messina said the Board should be allowed to go forward with their business. He had no intention to engage his questions but would present to the full Board and the Town. Mr. Morand said he felt he was attending a City

of Albany meeting where everything is hidden under the table. He didn't think was an open government anymore.

PUBLIC HEARING FOR LOCAL LAW #7 AMENDING THE CODE OF THE TOWN OF BETHLEHEM, CHAPTER 61, DOGS, ARTICLE II

A motion to forgo the reading of the call of the hearing and indent the public hearing notice and the affidavit of publication was offered by Councilwoman Dawson, seconded by Councilman Jordan and approved with the following vote:

AYES: Supervisor Messina, Councilwoman Dawson, Councilman Hennessey, Councilman Jordan and Councilman Kotary

NAYES: none

ABSENT: none

Supervisor Messina: I would like to ask Nanci Moquin to make a short presentation on this Local Law and give us a little background so that we can then open it to the public for comment.

Ms. Moquin: We're finding ourselves as a Town in a position of taking over the licensing of dogs. As of January 1st, NYS Ag and Markets no longer wants that responsibility. They still have their Article 7 that deals with many aspects of the licensing of dogs but as a municipality we need to decide the following issues: our licensing fees, whether we will continue to offer a discount to seniors for both spay or unspay dogs, whether we will continue to offer a purebred/ kennel license and whether we will grant a 30 day grace period for dogs that were licensed in other areas and then moved into our area. The proposed amendments in the law that were on the WEB site assume that the fees will increase, because of our costs; the senior discount will now only be on spay/neutered dogs, and we will no longer offer a pure bred/ kennel license, the transference between municipalities is difficult and after talking with other Town clerks, they have decided to eliminate that aspect of it. We will grant the grace period for 30 days to people coming into our Town.

Linda Jasinski: Are you going to tell us what the fees will be?

Ms. Moquin: What is before the Board as a proposal would be \$10 for senior citizens that have spay dogs, \$15 for others that have spay dogs and \$20 for unspay dogs. On top of this the state is mandating that we also include a \$1 surcharge on any spay animals and \$3 on unspay. They have an RFP out for an organization that will decide who will take care of animal protections, such as ASPCA, they lobbied to get this. We don't know where that money is going right now, we just know we have to collect it and send it along. If the Board decides, they can lower those fees. This is a proposal that I went through, putting the costs to the Town against what would be fair but not increase so much that it would discourage people from licensing their dogs.

Ms. Jasinski: And the current fee is?

92
93 Ms. Moquin: The current fee is \$2.50 which is imposed by the State and hasn't risen
94 since 1965. The Town put a local fee of an additional \$2.00 on in 1981 and we haven't
95 raised anything since that time.

96
97 Ms. Jasinski: So we're talking about going from \$4.00 to \$20, am I correct.
98

99 Ms. Moquin: Actually those people pay \$12.50 right now for an unspay dog. It would
100 go up to \$20. The seniors will go from \$2.50 up to \$10.
101

102 Ms. Jasinski: I understand the need to cover your costs, which I think is very important.
103 I understand the prices have not gone up, however, in the times that we have with a lot of
104 people giving up their animals and people wanting to adopt animals, I think you need to
105 keep the fees down as much as you can so people can afford to have an animal, take care
106 of it, save it from being out on the street. I'm not saying that it's super unreasonable but
107 can we just make sure that we're just covering our fees with this. It can get costly
108 especially when you start feeding animals and such. There are a lot of adoption things
109 that are out there looking for people to take these animals and give them a home. Thank
110 you.
111

112 Bob Jasinski: My question comes from a different angle. Number one, you mentioned
113 purebred/kennel, what is the definition of a purebred/kennel license.
114

115 Ms. Moquin: It's someone who has raises dogs to sell. They're purebred dogs. They
116 would have a license that would group their dogs together, instead of individual
117 licensing.
118

119 Mr. Jasinski; So you're dropping a kennel license?
120

121 Ms. Moquin: Yes
122

123 Mr. Jasinski: Do we have any people that have a kennel license?
124

125 Ms. Moquin: Right now we have about four.
126

127 Mr. Jasinski: So what will these people have to do? Dispose of a certain amount of dogs
128 that they have?
129

130 Ms. Moquin: No, the kennel license doesn't say how many dogs they can have, it is
131 whether they license them as group or individually. It won't take their ability to have
132 those dogs away from them.
133

134 Mr. Jasinski: My other question is due to this increase work will you have to increase
135 your staff in the Clerk's office.
136

137 Ms. Moquin: No. We'll do fine.

A motion to close the public hearing was offered by Councilman Kotary, seconded by Councilman Jordan and approved with the following vote:

AYES: Supervisor Messina, Councilwoman Dawson, Councilman Hennessey, Councilman Jordan and Councilman Kotary

NAYES: none

ABSENT: none

Supervisor Messina asked the Board if they were ready to act on the matter.

A motion to adopt Local Law #7 amending the Code of the Town of Bethlehem, Chapter 61, was offered by Councilwoman Dawson, seconded by Councilman Jordan

Discussion:

Supervisor Messina said when the Board reviewed the fees and saw that the fees had not been raised in twenty (20) years, they thought this was reasonable. Councilman Kotary said looking at the fee revenue versus the cost to the Town, there is still a significant cost to the Town. The gap is being closed but it's not closed yet. The fees have not been raised in many years and this increase is reasonable.

The aforementioned motion was approved with the following vote:

AYES: Supervisor Messina, Councilwoman Dawson, Councilman Hennessey, Councilman Jordan and Councilman Kotary

NAYES: none

ABSENT: none

APPROVAL OF TOWN BOARD MINUTES FOR 10/27/10

A motion to approve the minutes of 10/27/10 as drafted was offered by Councilman Kotary, seconded by Councilman Jordan and approved with the following vote:

AYES: Supervisor Messina, Councilwoman Dawson, Councilman Hennessey, Councilman Jordan and Councilman Kotary

NAYES: none

ABSENT: none

ADOPTION OF 2011 TOWN OF BETHLEHEM BUDGET

Supervisor Messina presented the main aspects of the 2011 Budget. There was a series of budget workshops that had been open to the public, presentations to the public and Town Board and a public hearing. He said the Board has a budget that maintains the Town's outstanding essential services. The unification of the water system has saved the Town about one point six million dollars in the budget. The fund balances are at a minimum of

15% which is at the top end of the guidance of the State Comptroller. There is a 1% COLA for the staff and it is one that he is most proud of because it was staff that helped cut the budget. He said there is multi-year budgeting which looks at capital needs over time. This will be the smallest budget property tax increase in five (5) years. He said the 20/20 Committee will be working with the Town Board in identifying improved efficiency and economy effectiveness in our government. He said the last two (2) budget workshops was where the Town Board and staff looked at the Supervisor's budget and looked hard at the numbers. Supervisor Messina said there were compromises and no one on the Town Board is completely happy with the budget but in total he hopes they will support this budget. Between the tentative budget and preliminary budget presented tonight there were additional things done. Additional expenditure reductions were found amounting to \$296,000; employee steps have been eliminated; removal of retirement amortization; restore salary reductions and additional allocation for internal reviews that will go on. The 2011 Preliminary Budget is now the Board's budget. It is about a half million dollar reduction from the 2010 adopted Budget. Additional reductions were found to reduce the use of fund balances, there is a reduction in the use of bonding, reduction in the use of park field fee revenues and reduction of the tax levy. The additional saving is \$435,000. In this budget, the Supervisor said the overall tax levy is 1.64%. The impact on the assessed value will be an additional 6 cents per 100 thousand. That's very close to zero budget.

Supervisor Messina said the Board would now consider the adoption of the 2011 Budget.

A motion to adopt the resolution for the approval of the 2011 Preliminary Budget was offered by Councilman Kotary, seconded by Councilman Jordan

Discussion: Councilman Kotary said this was a long process, starting in June and July. The budget has no starting or ending point, it is an ongoing process. All the Board has addressed this issue in terms of the 2010 budget. He thought this budget was truly a compromise. There were parts he liked, some parts could be better and others he didn't agree with. The Board and staff had worked very hard to get to this point. He had thought the tentative budget taxed a little too much, spent a little too much and borrowed a little too much. The Preliminary budget reduces the taxes though he was hoping for a no tax increase but he thought the Board had made an effort to get it to zero. The end budget spends less and borrows less with fewer fees and it uses less of the reserves. The Board had to cut a little more. He thanked the Board members, the department heads and the Supervisor for all the hard work on this year's budget. He thought this was a good budget, possibly the best in the 5 years he's been on the Board.

Councilman Hennessey said the Board had spent a good share of the summer and fall working through the issues in the budget. In government, difficult decisions are made with the information in front of you at the time. We are statutorily required to pass a budget by November 20, 2010. That means that decisions had to be made, some that he is not as comfortable as he would have liked. The things that gives him concern are the little things and those are issues that can be resolved. He thought there was more work that could be done to further reduce the numbers to try and get to zero. Last year during

the budget process, Supervisor Messina, had talked about the idea of zero based budgeting. It was an interesting concept and one he had learned more about. To get to a zero based budget would be a reduction of \$153,635. There are issues in the Town that need to be looked at, such as how the Town does their field rental fees for some of the community groups here in Town. He has asked for some items during the budget process that he has not received yet such as a break even memo on a consolidation proposal within DPW to take some of their operations to a single place. He would like to support the budget but he proposed the Board continue to work on it because there are people in the community that still want to see the numbers go down. He would like to see a budget review commission to try and figure out how to save \$153,635 in next year's cost and also take a look at the \$375,000 shortfall in this year's budget.

Councilwoman Dawson said one of the difficulties in the budget meetings was the uncertain revenue numbers for next year. This budget is cautiously optimistic. The Board is ready to watch both sides of this budget as we move forward. She agreed with Councilman Hennessey that there were a number of things that needed to be watched closely. This is an ongoing process and the Board will continue to work with the Comptroller and the Supervisor and the department heads. There are a lot of variables that can't be predicted, such as snow storms and draughts. She thought it was important that the Board had a lot of comparative data from other communities. The Board made decisions they thought were right for the Town of Bethlehem in terms of the programs and services and what some of the groups such as 20/20 were suggesting for the Town. It is a compromise budget and our work continues.

Councilman Jordan said no budget is all things to all people. It is a compromise budget that is fair, reasonable and responsible and balanced the many interests that are out there.

Supervisor Messina said the department heads had found savings and worked cooperatively with all involved. He thought this was a good budget and will help the Town go forward. He said the process was extensive. This budget has some creative elements. They're not perfect but a start such as a capital component with multi-year budgeting. He said the Board worked together for this budget. He said as far as Mr. Hennessey's suggestion for a budget review commission, he was not prepared to act on that at this time. He said he would reach out to the Board to work on further savings.

The aforementioned motion was approved with the following vote:

AYES: Supervisor Messina, Councilwoman Dawson, Councilman Hennessey, Councilman Jordan and Councilman Kotary

NAYES: none

ABSENT: none

Resolution # 32

276
277 WHEREAS, the Town Board has met at the time and place specified in the Notice
278 of Public Hearing on the Preliminary Budget and heard all persons desiring to be heard
279 thereon,
280

281 NOW, THEREFORE, BE IT RESOLVED, that the Preliminary Budget be and it
282 hereby is adopted as the Annual Budget of this Town for the fiscal year beginning on the
283 1st day of January, 2011, and that such Budget as so adopted be entered in detail in the
284 minutes of the proceedings of this Town Board, and be it
285

286 FURTHER RESOLVED, that the Town Clerk of this Town shall prepare and
287 certify, in duplicate, copies of said Annual Budget adopted by this Town Board, together
288 with the assessment rolls for benefit improvements, if any, adopted pursuant to Section
289 202-a, of the Town Law, and deliver two copies thereof to the Supervisor of the Town to
290 be presented to the Albany County Legislature.
291

292 The foregoing resolution was presented for adoption by Councilman Kotary,
293 seconded by Councilman Jordan and duly adopted by the following vote:
294

295 AYES: Supervisor Messina, Councilwoman Dawson, Councilman Hennessey,
296 Councilman Jordan and Councilman Kotary

297 NAYES: none

298 ABSENT: none
299

300 Dated: November 10, 2010
301

302 **REQUEST FROM THE CHIEF OF POLICE TO ACKNOWLEDGE THE**
303 **RESIGNATION OF POLICE OFFICER ARTURO NAPOLITANO, EFFECTIVE**
304 **OCTOBER 30, 2010**
305

306 Supervisor Messina said this officer was hired at the end of last year and his
307 qualifications were outstanding. The Town acknowledged his work and is sorry to lose
308 him.
309

310 **PRESENTATION BY A MEMBER OF SCENIC HUDSON OF AN OVERVIEW**
311 **OF THE REVITALIZATION HUDSON RIVERFRONTS PROJECT**
312

313 Jeff Anzevino from Scenic Hudson presented. (This presentation is on the WEB site in
314 its entirety) Scenic Hudson has recently published a book called Revitalizing Hudson
315 River Fronts. Scenic Hudson is a non-profit environmental organization based in
316 Poughkeepsie. The Binnon Kill is an area in the southern section of the Town of
317 Bethlehem. There were a couple of islands that had been separated from the main land.
318 This book is a smart growth guide for communities on the river front. It is to direct
319 development to areas where there is already infrastructure and built areas and to plan to
320 protect the sensitive areas with natural resources. The Hudson River has a variety of
321 different scale Towns along its borders. A sample development area was shown with

compact development, connection to the river and compatible businesses with open space in between. To promote development in areas where there is existing infrastructure is fiscally responsible way to develop. Built areas already have nearby services and it based on a principle of new urbanism. The hamlet of Delmar is an example of a walk-able community. The second chapter of the book encourages water dependent uses. The types of uses that need to be on the river should be promoted there. These would be boat building, marinas, fishing facilities and non-water dependent business should be discouraged from those locations. Those would be industrial uses that are not water front dependent. There is a category of water enhanced uses which are businesses that are made better by water front locations. Mixed use developments, hotels, restaurants are a few. It is important to connect people to the river. Scenic Hudson believes that the more people use the river, the more they will appreciate it and be better stewards of the river. This can be done with parks, providing greenway trails along the river and connections from the river to neighborhoods and business districts. Natural resources should be protected as well as scenic resources. Homes could be sited along the river in such a way as to protect river vistas while buffering homes. The final chapter of the book deals with sustainable design that ties all the other aspects together. There are wetland areas along the Binnen Kill and some nice farmland. The Binnen Kill will be a part of Town affected by global climate change. The river levels have been rising. The projected modeling shows the areas that are not now but will be under water. Scenic Hudson feels the best way the Town can plan for future waterfront is to develop a Local Waterfront Revitalization Program. This is locally prepared program. There are benefits to establishing this plan. When grants become available the Town will be in a better position to take advantage of them. Without a LWRP in a Town, when a project is proposed along the river front, the State Coastal Policies come into play.

Supervisor Messina recognized that Scenic Hudson has been a partner with the Town in a number of planning and grant areas. The Town is in the final stages of its LWRP, that will be coming to the Town Board and then the Department of State for its review. Scenic Hudson has reviewed the LWRP of the Town.

Councilman Hennessey said the document lists a number of mitigation strategies the Town can engage in to mitigate climate change. Some of those are to become a Climate Smart Community and Bethlehem was one of the first communities to do that; promote development in areas with existing infrastructure and our Town's Comprehensive Plan pushes in that direction; decrease energy use in our operations and we did that this year; transitioning to renewable energy sources and the Town will be putting solar panels on the park facility and lastly increasing urban greenery and tree cover. Our community is deeply committed to these issues. He said the Town has heard Scenic Hudson's lesson and we're following it. Mr. Anzevino said that the Town of Bethlehem was very progressive.

PRESENTATION BY COUNCILMAN KOTARY OF TOWN OF BETHLEHEM PURCHASING DIVISION POLICY AND PROCEDURES

Councilman Kotary thanked the Board members, the department heads and especially Rick Webster for their work on the policy. This is a comprehensive procurement policy that consolidates our existing policies into one document. It clarifies our policies and updates the procurement policy. He said the exercise itself was a good one; it produced a great document. They tried to create a document that didn't create more bureaucracy. He encouraged the Board members to support it.

A motion to accept the Town of Bethlehem Purchasing Division Policy and Procedures as drafted was offered by Councilman Kotary, seconded by Councilwoman Dawson:

Discussion:

Councilman Hennessey said there was a section he wanted to discuss. Section III, Subsection M, paragraph viii, exception to the RFP Requirement, he asked to have that section taken out. He didn't want to bypass the RFP requirement. He thought proprietary software should be bid out. Supervisor Messina said this section allows the purchase of proprietary software. He thought it was in the document to allow the MIS Director the ability to purchase software that would fit with other modules the Town already owns. Councilman Hennessey thought 80% of the software on the market was proprietary. If the Town is going to bid we should bid. Mr. Dammeyer said the section was referring to software such as the police system that has the ability to add modules, such as property tracking, the Town would have to get it from the company that sold us the original system because its built around the rest of the software. Councilman Hennessey thought it created a monopoly condition. If that software vendor went out of business the Town would need to purchase again anyways. Mr. Dammeyer said the systems, such as an enterprise resource system, that is what is done. The entire system is purchased and then modules are slowly integrated into the business. The Town wouldn't want to throw out the current system and start over again. These are building blocks. Councilman Hennessey said he's coming from the premise that when you purchase, you competitively procure. He wanted to move in the direction of no long term commitments. He wanted this section taken out to stop vendors from dictating terms. Mr. Dammeyer said generic products, such as office products, could go to bid but a 1.5 million dollar police system, you can't bid a portion because it won't interface with the rest of the system. The decision needs to be made at the time of purchase that this is the system you want. Councilman Hennessey asked if the original purchase would be competitive. Mr. Dammeyer confirmed. Councilman Hennessey this section was creating an exception to bid process. If only one comes back, then that's the bidder. It gives others the opportunity to bid. Mr. Dammeyer said the Town is locked into a software system that was chosen. New modules need to integrate with the existing system. Mr. Potter asked if the RFP would describe a module in such a way that would restrict compatibility issues. If Mr. Dammeyer took Councilman Hennessey's approach, the RFP would only be open to those few vendors that could meet the RFP. Mr. Dammeyer said it would be the one company. Mr. Potter said it would be a situation of sole source. Adopting the policy that Councilman Hennessey is suggesting wouldn't cause a problem if there was a sole vendor. Councilman Hennessey it would allow the public to see the procurement. Councilman Jordan said he agreed with Councilman Hennessey. Councilman Kotary

413 said what if an RFP went out and a company met some of the specs but full integration
414 was questioned but they were low bid. It could cost the Town more. He said this was
415 existing policy and he didn't want to pull out the section without exploring all the
416 ramifications. He didn't want to be forced into a low bid module that would cause the
417 Town to have to start over. He was not the IT expert. He didn't want to make the change
418 tonight but go forward with the policy as drafted and then take another look at the
419 section. Councilman Hennessey still wanted to take the section out. Supervisor Messina
420 said the RFP process was time consuming for staff and sometimes caused delays.
421 Councilman Jordan asked to hold over the approval for 2 weeks. Councilman Kotary
422 wanted to keep the motion with the commitment to rework the one section.
423 Councilwoman Dawson suggested approving the document without the paragraph but if
424 there are problems they could add in the paragraph. Councilman Jordan agreed. Mr.
425 Webster said the Board would see the document again at the organizational meeting
426 because it must be adopted each year.

427
428 A motion to amend the motion to delete, Section 3, Subsection M, paragraph 8 was
429 offered by Councilman Kotary, seconded by Councilman Hennessey and approved with
430 the following vote:

474 **NEW BUSINESS**

475
476 **PUBLIC COMMENT ON NON-AGENDA ITEMS**

477
478 Norman Morand asked what the statutory limit on bonding was before the Board needs
479 the tax payers approval. Mr. Potter said he would check. He said he heard there isn't
480 enough room in Town Hall and wondered if there was a study to put a second story on
481 this area. Supervisor Messina said this was not a time for questions but for comments.
482 He said he would meet with him. Mr. Morand said it was in the newspaper. He said it
483 was not his comment but public knowledge. He asked if the study was done. Supervisor
484 Messina said the issue was being looked at.

485
486 Carl Kirk – 34 Center Lane – he is concerned with the burning of vehicles at the fire
487 training center. He appreciates the volunteer fire companies and know they need to
488 practice but he doesn't want to see the people in his neighborhood harmed by the fumes.
489 The burning vehicles release toxic chemicals, the volunteers wear breathing devices to
490 protect themselves but there is no protection for the neighborhood. He tried to speak with
491 various State departments and fire companies of Bethlehem with little satisfaction. He
492 made the following suggestions: ban the burning of vehicles or move the burning to
493 another site, such as the train yards or purchase a car burning simulator. He wanted the
494 Town to put pressure on the fire companies.

495
496 Supervisor Messina said there are legal limits of the Town in this matter. He has a
497 willingness to speak with the fire companies on the neighborhood's behalf.

498
499 Bob Jasinski – Bender Lane – He said the budget was presented nicely but he wanted to
500 make the senior citizens aware that Albany County will have about a 14% increase in
501 taxes even if the Town's increase will be low. If they are starting to save money towards
502 the bill he wanted to make them aware of that. He said at the last meeting Mr. Connors
503 presented an offer for the Town to go through them in their bonding as a cost savings
504 measure. He asked Ms. Taylor if she had looked into the offer. Supervisor Messina said

the Town has known about this for awhile but there could be issues. Mr. Jasinski asked Ms. Traylor to look into it. Councilman Hennessey said bulk bonding could be an issue because municipalities don't have the same bond rating. The Town of Bethlehem has an AA bond rating. Supervisor Messina said there are other variables to consider also.

Gregg Gould – Homeland Security and Emergency Services and the Office of Fire Prevention and Control - He has spoken with Mr. Kirk and the Town's fire officers. He reviewed the Town's policies and procedures at the fire tower and they meet and exceed what he does with the State. It is a necessary evil. The fire departments need to be trained on what they do. The fire companies must meet the objective of the training and if that's to be trained on a burning car, then that's what they must do. He understands it's an environmental concern but it is to prepare the fire fighters. They are following the rules and the local fire district determines what they need to reach their objectives.

Mr. Kirk asked if the fire simulators would meet the objectives. Mr. Gould said yes. He didn't know if they put off toxic chemicals. He said they are very expensive, around \$40,000 to \$50,000. Normally cars are free. Mr. Kirk wanted to know if there were regulations as to where the burning cars could be. Mr. Gould said no.

Julie Kirk – She said there is an alternative, the propane burning cars, and she thought that should be looked at by the fire companies. She has gotten information on the cars and one car would meet all the company's needs.

Councilwoman Dawson said a dialogue would continue with the fire companies.

ANNOUNCEMENTS

A motion to adjourn to executive session for potential litigation was offered by Councilman Jordan, seconded by Councilman Kotary and approved with the following vote:

AYES: Supervisor Messina, Councilwoman Dawson, Councilman Hennessey, Councilman Jordan and Councilman Kotary

NAYES: none

ABSENT: none

A motion to adjourn the meeting was offered by councilman Kotary, seconded by Councilman Jordan and approved with the following vote:

AYES: Supervisor Messina, Councilwoman Dawson, Councilman Hennessey, Councilman Jordan and Councilman Kotary

NAYES: none

ABSENT: none

The meeting adjourned at 7:50pm.

EXECUTIVE SESSION:

551

552 A motion was made by Councilman Hennessey and seconded by Councilman Jordan to
553 accept the tentative settlement in Elsa Marie Kelp v. Town of Bethlehem (Index No.
554 5085-10) of \$200,000 and approved with the following vote:

555

November 17, 2010

Bethlehem Town Board
445 Delaware Avenue
Delmar, NY 12054

Dear Board Members:

I respectfully request that the Town Board award the bid for a used bulldozer for use by the Highway Department to the low bidder, Robert H. Finke and Sons, Inc. of Selkirk, NY. Four vendors bid various machines on November 12, 2010 with Finke providing the lowest price of \$52,500. This used piece of equipment meets our specifications and personal inspection of the unit and the maintenance records assures us it is of good quality and in good condition.

The Highway Department will be trading in three pieces of track equipment with this purchase. They are:

1988 Caterpillar D4H Bulldozer
1990 Fiat Allis FL10E Crawler Loader
1994 Caterpillar D3C Bulldozer

These three pieces have served the Town well, but are in need of major repair work at substantial cost.

Funds for the purchase of the bulldozer are available in the 2010 Highway Department operating budget. Although this purchase was not specifically earmarked at the beginning of the year, the department will be delaying purchase of two small trucks originally approved in order to complete this acquisition. The Fleet Manager has been involved in this purchase and concurs with the plan.

Please feel free to contact me with any questions or if you require additional information.

Thank you for your consideration.

Very truly yours,

Gregg A. Sagendorph
Superintendent of Highways

NEW YORK STATE CONSERVATION PARTNERSHIP PROGRAM

2011 Conservation Catalyst Grants Two-Year Grants

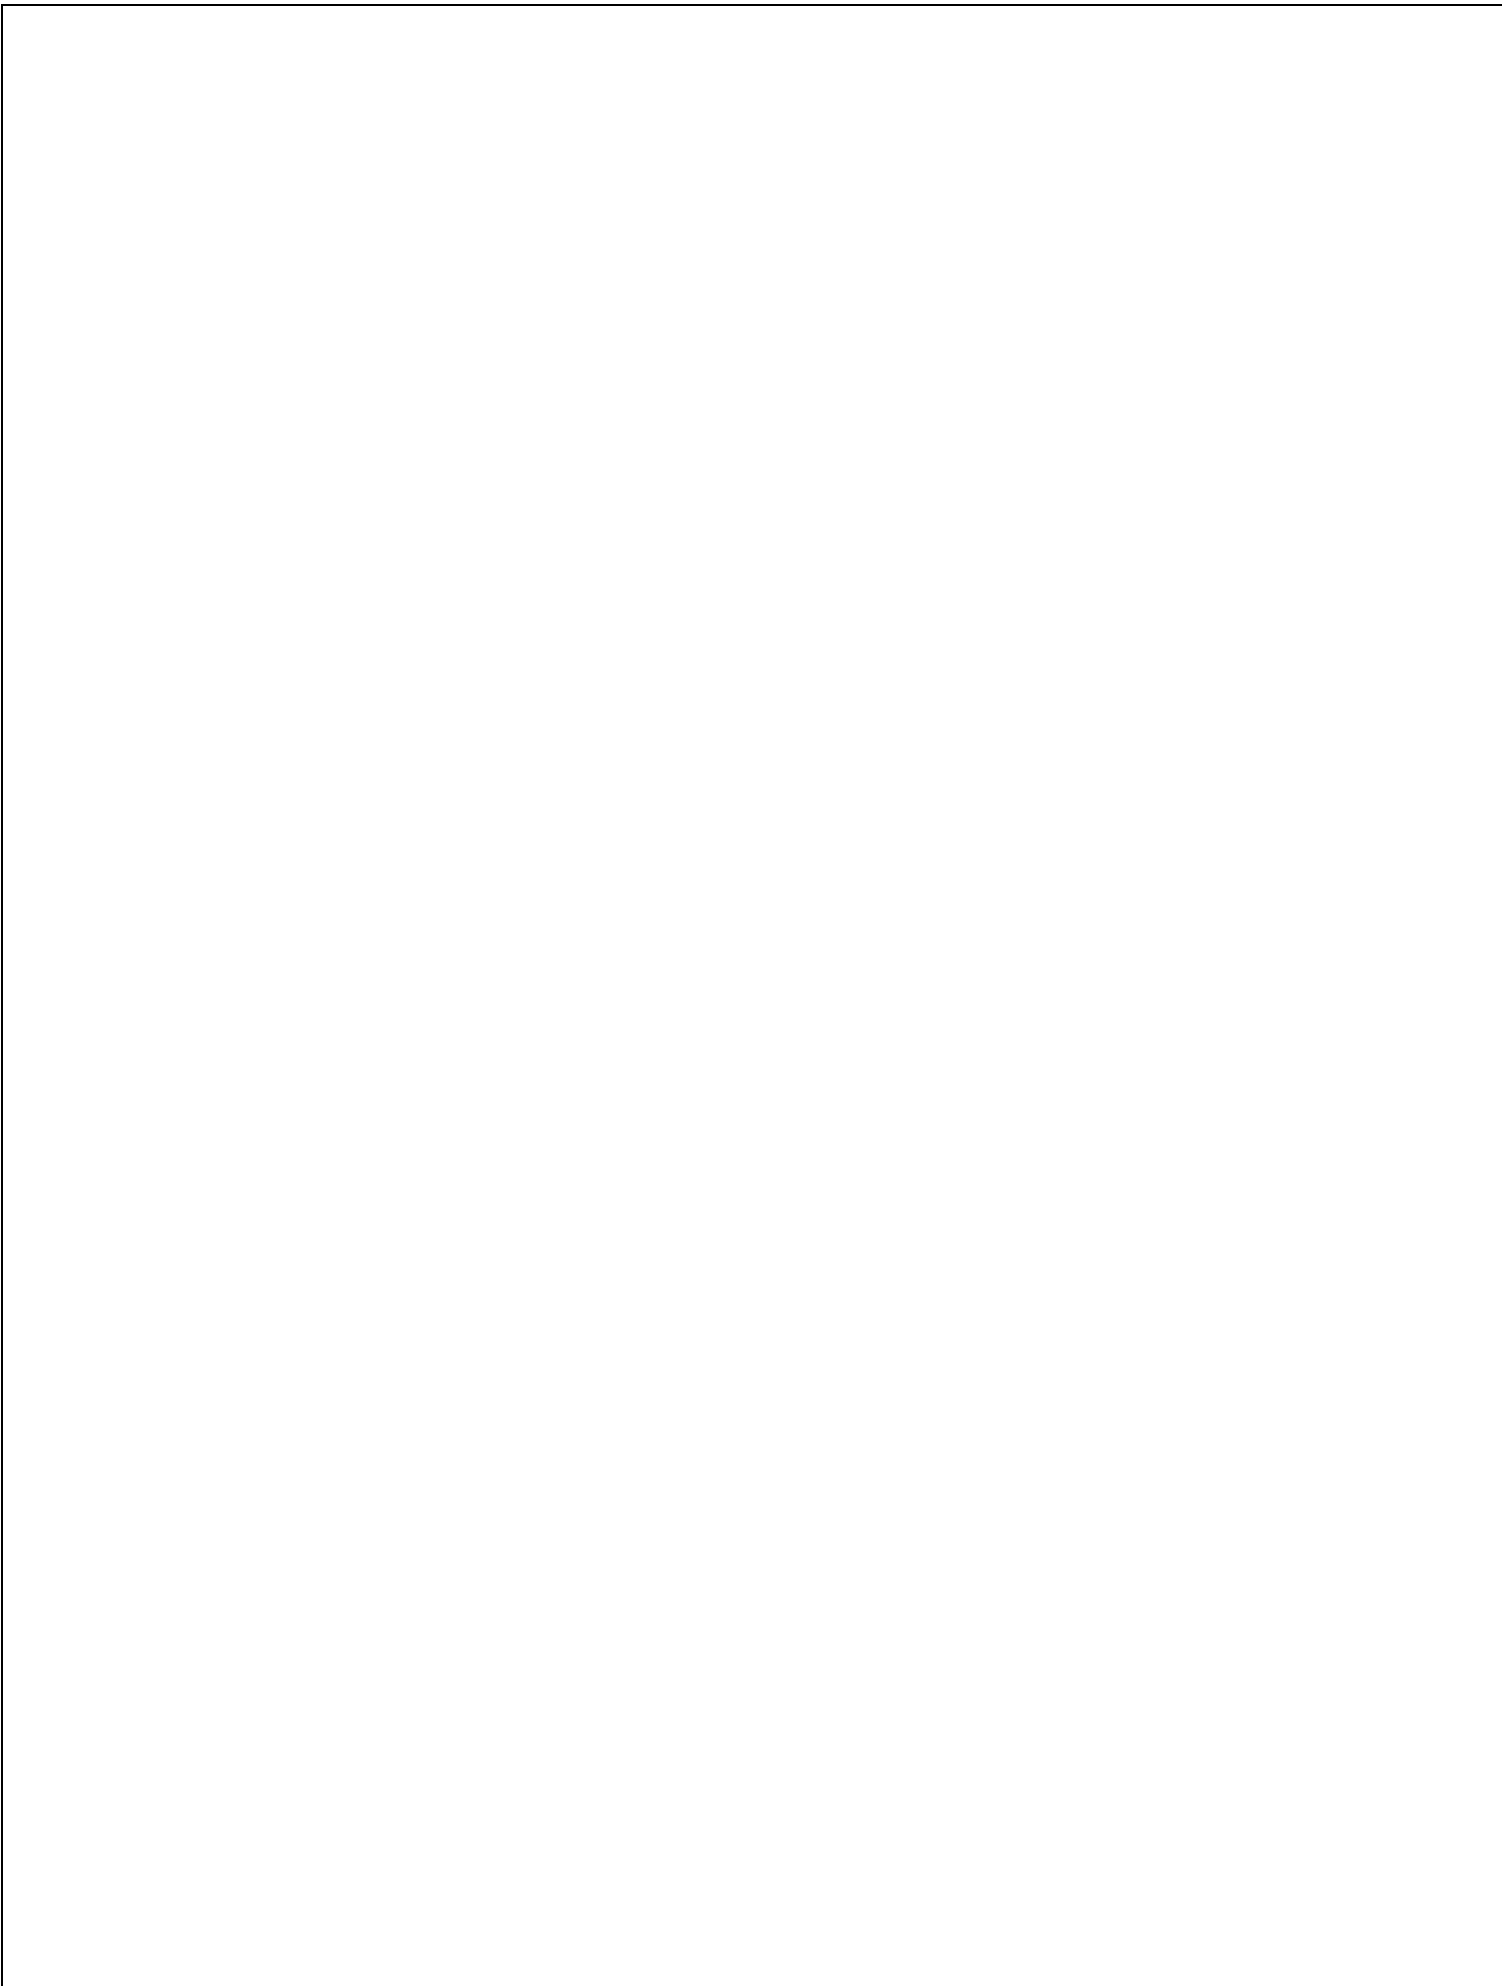

GUIDELINES

This competitive land trust grants program is supported by an appropriation from the New York State Environmental Protection Fund and administered by the Land Trust Alliance, in coordination with the New York State Department of Environmental Conservation.

Applications Must be Postmarked by December 10, 2010

Land Trust Alliance Northeast Office
112 Spring Street (Suite 205)
Saratoga Springs, NY 12866
(518) 587-0774

To download an electronic version of required application forms, go to
<http://www.landtrustalliance.org/community/northeast/nyscpp>

INTRODUCTION

The Land Trust Alliance and State of New York are pleased to offer New York State Conservation Partnership Program (NYSCPP) *Conservation Catalyst Grants* of **up to \$40,000** to launch new conservation-related partnerships, collaborations, and community initiatives with landscape scale and/or regional implications. Land trusts operating in the State of New York that meet all eligibility requirements are encouraged to apply.

PROGRAM OVERVIEW

Purpose	The purpose of <i>Conservation Catalyst Grants</i> is to support new initiatives and community partnerships that will lead to conservation of environmentally significant lands, including those identified in the 2009 New York State Open Space Plan, New York Wildlife Action Plan, and/or other local, regional or statewide land protection plans. Conservation Catalyst projects should involve a measure of innovation for the land trust, engage multiple partners and stakeholders, and have a clearly defined public benefit that advances the land trust's mission, goals and programs. [See <i>Eligible Projects</i> .]
Grant Awards	The maximum grant award is \$40,000. Grant funds will be disbursed in two installments. The maximum grant award for a single project is \$40,000. Applicants must meet a 25% (or 1:3) matching funds requirement (e.g. \$10,000 of matching non-State funds required for a \$30,000 grant). Land trusts may apply for more than one Conservation Partnership Program grant; however, no land trust will receive more than a total of \$80,000 in the 2010-11 grants cycle. A separate application is required for each grant proposal.
Deadline	<u>Applications must be postmarked by December 10, 2010.</u> Mail all application materials to: Land Trust Alliance Northeast Office New York State Conservation Partnership Program 112 Spring Street, Suite 205, Saratoga Springs, NY 12866 <u>Facsimiles and e-mail applications will not be accepted.</u>
Project Selection	Proposals are reviewed by a committee with representatives of the Land Trust Alliance, New York State Department of Environmental Conservation, New York's land trust community, and the foundation/grant-making sector. All decisions of the review committee are final.
Application	Each applicant must submit five (5) complete copies of the full application (collated as five separate packets), and one set of supporting materials (see Application Requirements for additional information).
Grant Period	The two-year grant period is January 1, 2011 – December 31, 2012. The grant award is disbursed in two annual grant installments. [See <i>Reporting Requirements</i> .] Extensions must be requested in writing and are granted at the discretion of the Alliance.
Notification	The Land Trust Alliance plans to announce grant awards by April 2011. [Note: Grant awards are contingent upon release of State funds.]

Inquiries

Please direct inquiries to the Northeast Program office at 518-587-0774 or via email to Katrina Howey (khowey@lta.org).

ELIGIBILITY REQUIREMENTS

Land trusts meeting the following criteria are eligible for *Conservation Catalyst Grants*:

- Applicant is tax-exempt under Section 501(c)(3) of the Internal Revenue Code.
- Applicant is a qualified conservation organization under Section 170 (h) of the Internal Revenue Code and has a stated land conservation mission.
- Applicant has formally adopted *Land Trust Standards and Practices*.
- Applicant's service area is located within the State of New York.
- Applicant has submitted all Interim and Final Grant Performance reports that are due for previously awarded NYSCPP projects, unless an extension has been requested and granted.
- IMPORTANT: Applicant must meet cash match requirement, contributing at least 25% of project costs (e.g. \$10,000 of matching non-State funds required to match a \$30,000 grant).
- For Conservation Catalyst Grants, up to 50% of the required match contribution may be in the form of in-kind contributions of donated goods and/or professional services.
- Cash and in-kind match must be verifiable at time of application.

ELIGIBLE PROJECTS - CONSERVATION CATALYST GRANT

- Landscape-scale land conservation projects involving neighboring land trusts, multiple landowners, local government and/or other community partners. Projects may involve urban, rural, or suburban landscapes with important conservation values and public benefits.
- Partnership projects with local governments to design and/or implement a local, municipal or county open space or farmland protection plan.
- Collaborations to enable protection of priority areas identified in the 2009 New York State Open Space Plan, New York Wildlife Action Plan, and/or other local, regional or statewide land protection plans.
- Community initiatives that promote outreach and public education resulting in greater public support for land trusts and broader public involvement in private land conservation.
- Constituency-building initiatives that re-connect children and families to nature and open space through new education and recreation programs; promote greater diversity (social, economic, demographic, etc.) in land trust activities and memberships; efforts to engage community leaders to expand land trust services in under-served communities; projects that build community relationships by addressing climate change, food security, smart growth planning, or other land trust mission related initiatives with important local or regional implications.

PROJECT COSTS NOT ELIGIBLE FOR FUNDING

Conservation Catalyst grants funds are not available for the following:

- General operating support.
- Purchasing interests in land or buildings.
- Endowment funds.
- Project costs incurred before January 1, 2011.

Application Instructions

Prepare five (5) collated copies of your proposal. Please use the outline provided below to organize it and use double-sided copies when feasible. Please use paper clips only; do not use binding or binders of any kind.

1. **Application Form** (*separate document*)
2. **Project Budget & Statement of Matching Funds** (*separate document*)
3. **Project Narrative:** No more than 3 pages. Please refer to **Evaluation Criteria** (see below) to organize your narrative. Not all criteria apply to all projects.
4. **Project Schedule:** Provide a realistic timeline for project activities.
5. **Map of the Project Area and parcels** to be conserved showing relationship to other state, regional, or locally protected and/or prioritized areas.
6. **List of Key Project Personnel:** Please list individuals who will oversee this project and have responsibility for reporting grant performance.
7. **IMPORTANT - Letters or Resolutions of Support:** Please include any letters of support from local, county officials, state or other governmental partners.
8. **Documentation of Matching Funds:** Please provide documentation such as written pledges from funders, copies of checks received, etc.

Supporting Materials

Prepare one (1) copy of the following supporting materials. If you are applying for more than one grant, please include a copy of supporting materials for each application.

1. Land trust's most recent annual report.
2. Land trust's most recent year-end financial statement and operating budget for 2011, if available.
3. Copy of land trust's IRS 501(c)(3) determination letter.
4. Copy of land trust's most recent annual financial report to the New York State Charities Bureau (CHAR 500).
5. List of the land trust's current Board of Directors.
6. Copy of board resolution adopting *Land Trust Standards and Practices* (or meeting minutes recording formal adoption).
7. Digital photographs if available, of grant-funded protected properties/landscapes for use in Land Trust Alliance publications and NYSCPP promotional materials (do not send paper copies of photos).

8. Additional Supporting Information: please include (if applicable) a map of land trust service area and any printed materials, press articles, or other information that support your application.

**Evaluation
Criteria**

Projects will be evaluated and ranked according to the following criteria:

PRIMARY EVALUATION CRITERIA

- ◆ Project goals and outcomes are clearly articulated with well-defined deliverables and measures of success.
- ◆ Project is aligned with the land trust's mission, goals and strategic priorities.
- ◆ Project complements land protection strategies of the 2009 New York State Open Space Plan, New York Wildlife Action Plan or other local and regional protection plans. Please cite and include highlighted pages or sections of relevant plan(s). For information go to: www.dec.state.ny.us.
- ◆ Demonstrated community and municipal support for the project as evidenced by letters of support, municipal resolution, etc.
- ◆ Project enables a partnership, collaboration, or community initiative involving other conservation partners, public and/or private that:
 - serves as a “catalyst” for local or regional open space protection;
 - builds community support for and involvement in land conservation;
 - advances an innovative model for collaboration, outreach, constituency-building, and/or community engagement in New York's land trusts.
- ◆ Applicant demonstrates sufficient organizational capacity and commitment to complete a complex multi-year project.

SECONDARY EVALUATION CRITERIA

- ◆ Project acreage and/or relation to other protected areas.
- ◆ Match greater than minimum required.
- ◆ Land trust demonstrates a high level of competence, accountability, and due diligence, including satisfactory completion of previously awarded NYSCPP projects and final performance reports.

**Grant
Agreement**

Grant funds will not be disbursed until a signed grant agreement and proof of matching funds are submitted to the Land Trust Alliance. Failure to return the signed grant agreement may result in forfeiture of the grant.

Significant changes in project deliverable(s) and/or timeline are not encouraged and must be approved by the Land Trust Alliance Northeast Office in advance.

Grantees will work with the Alliance to plan publicity and outreach for completed projects.

**Reporting
Requirements**

Conservation Catalyst Grant recipients are required to complete two reports. An Interim Project Report is due by December 31, 2011 (12 months after the beginning of the grant period). Satisfactory completion of the interim report is necessary before the second 50% installment of grant funds will be processed. A final report is due 30 days after completion of the project, or no later than December 31, 2012.

Interim and Final Performance Report forms are available at:

<http://www.landtrustalliance.org/community/northeast/nyscpp>

If grantee fails to comply with the terms of the grant agreement or to submit a complete final performance report, it may be deemed ineligible for future grants and may be required to remit grant funds to the Land Trust Alliance.

REQUIRED CERTIFICATION OF COMPLIANCE WITH THE USA PATRIOT ACT

The Land Trust Alliance is in compliance with the USA Patriot Act and Executive Order 13224 Blocking Property and Prohibiting Transactions with Persons who Commit, Threaten to Commit, or Support Terrorism. As recommended by the U.S. Department of the Treasury Anti-Terrorist Financing Guidelines, the Land Trust Alliance certifies that it does not employ or associate with any entities or individuals named to the terrorist watchlists maintained by the Office of Foreign Assets Control, the U.S. Department of Justice, the European Union, or the United Nations. The Land Trust Alliance does not make grants to foreign organizations nor to any organization that has ties to terrorism or money laundering.

The Land Trust Alliance employs appropriate due diligence procedures for each potential grant recipient and monitors the grant-related expenditures of its grantees in order to remain in compliance with the aforementioned laws.

To: New York State Conservation Partnership Program

Re: 2011 Catalyst Grant Application

The Town of Bethlehem supports the application submitted by Saratoga PLAN in conjunction with the Mohawk Hudson Land Conservancy to examine the implications of a transfer of development rights program in the Saratoga and Albany counties. This grant proposes to analyze the fiscal, economic, geographic, administrative, and logistical implications of establishing a TDR program in Bethlehem and a Saratoga County town. This information would be valuable to our town in helping to assess how we might implement a local TDR program.

The Town of Bethlehem recently passed a farmland protection plan. In 2009 it completed a study "*Town of Bethlehem Recommendations on Open Space Needs and Opportunities*" which proposed "... an integrated approach to open space protection, planned and implemented in a way that makes the most out of limited fiscal resources..." TDR may be a tool that would help us implement recommendations in both of these documents by providing a funding source other than scarce public dollars. This study would provide us with needed information to analyze the benefits and costs of such a program and how it might fit into our current planning and zoning policies.

We hope you will give serious consideration to this grant. We believe it will help promote land protection in our community and may serve as a model for neighboring communities in Albany County.

Sincerely,

Sam Messina

STANLEY GEE
ACTING COMMISSIONER

October 21, 2010

Honorable Sam Messina
Supervisor, Town of Bethlehem
445 Delaware Avenue
Delmar, NY 12054

Dear Supervisor Messina:

Many thanks to you and to Deputy Commissioner Erik Deyoe for meeting with myself, Joe Tario from NYSERDA, and John Bullough from RPI last month to discuss RPI's research study on roundabout lighting and vegetation. We are pleased that you are willing to consider supporting this roundabout study at the intersection of NYS Routes 85 and 140 in the Town of Bethlehem. A summary of our meeting, prepared by John is attached for your information.

As we discussed, this research project will involve a series of short-term demonstration installations of temporary lighting and vegetation along portions of the roundabout. RPI will be responsible for the installation, operation, and maintenance of the lighting system and vegetation. The initial demonstrations will occur during a single night; the final demonstration is expected to have a longer duration (i.e., a week to several months), depending upon the scope of the design. RPI will submit preliminary plans to NYSDOT for review of the design regarding equipment and vegetation locations. NYSDOT will solicit your input and respond to feed back form the Town before authorizing any installation activity by RPI. NYSDOT will then issue the work permit once satisfied with the plan. This process will be followed for each demonstration phase to ensure the NYSDOT and the Town's input and concerns are addressed.

These installations will occur entirely on state property and per its contract with NYSERDA, RPI has liability insurance, should any incidents occur. RPI, in cooperation with NYSDOT, will be responsible for the installation, maintenance and removal of all equipment and vegetation after each demonstration installation and there will be no ongoing operating or maintenance costs to the Town. RPI is prepared to halt installation activity at any time should any safety concerns arise.

RPI and NYSDOT are also committed to communicating with the Town and residents so that they will be informed about the project goals and activities, including presentations to the Town Board or other venues deemed appropriate. Town personnel and citizens will also be invited to participate in the evaluations of each installation, but such participation is not required.

We look forward to progressing this project with the Town's support and hope the Town will continue to support it. As you indicated on September 27, we will focus our initial communications with Deputy Commissioner Deyoe. If you have any further questions or concerns about this project please do not hesitate to contact me.

Sincerely,

Mark J. Kennedy

MEMORANDUM

TO: Supervisor Messina and Members of the Town Board
FROM: Paul Penman, P.E. *Paul Penman*
Town Engineer
SUBJ: 6 and 8 Delsmere Avenue, Drainage Easements
DATE: November 12, 2010

SMB Holdings, LLC & CLB Holdings, LLC have submitted two (2) maps and deed documents to the Town Engineering Division for the subject project. The first, a 0.031-acre parcel containing easement "B" located at 8 Delsmere Avenue, the second, a 0.04-acre parcel containing easement "A" located at 6 Delsmere Avenue.

The two drainage easements are shown on Delsmere Avenue and Maple Avenue Land Division which was approved by the Department of Economic Development and Planning on November 1, 2010.

The Engineering Division has reviewed the documents and compared it to the submitted maps.

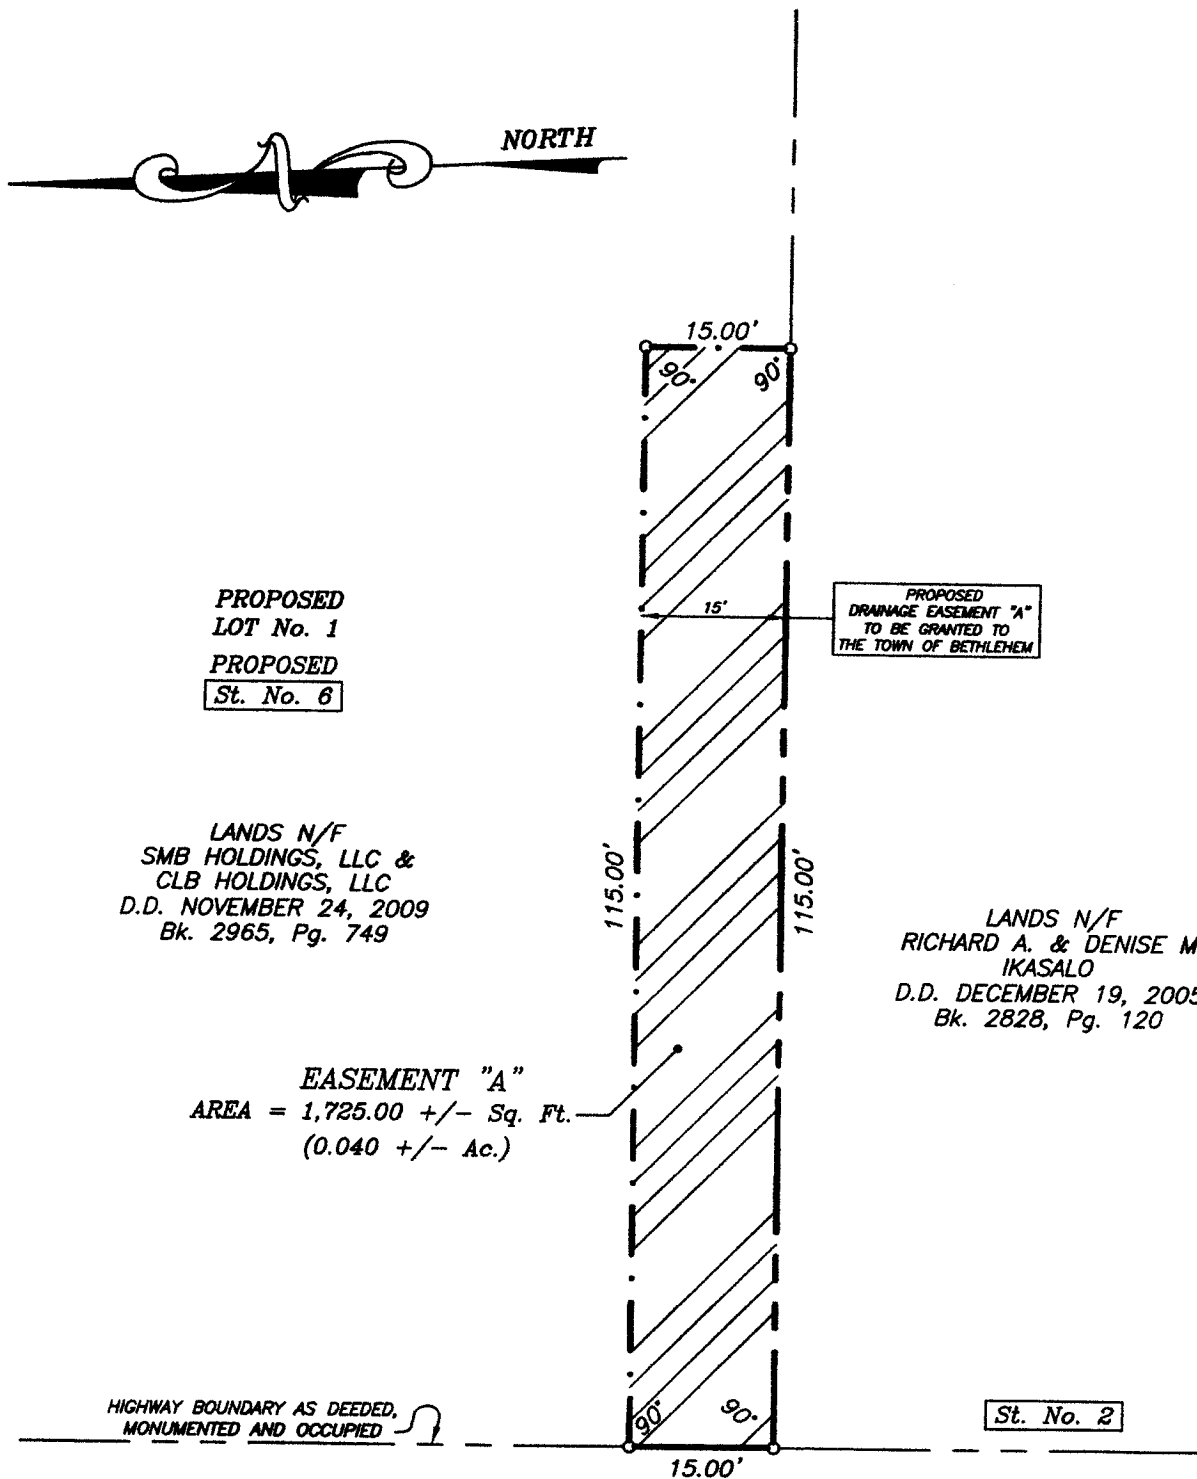

Based on our review, we recommend that the Town Board accept the abovementioned maps and deed documents, and the conveyance of the aforementioned right-of-way and easement.

If you have any questions or require additional information, please feel free to contact me.

MEMORANDUM

TO: Supervisor Messina & Members of the Town Board

FROM: Paul Penman, P.E. 
Town Engineer

DATE: 17 November 2010

SUBJECT: Henry Hudson Park – Shoreline Stabilization Study
Recommendation to Enter into a Contract with Ocean and Coastal Consultants

Requested Action

- I. Authorization to enter into a contract for the above referenced project with Ocean and Coastal Consultants Engineering, P.C. (OCC) for \$31,000 and authorization for Supervisor Messina to sign a contract with Ocean and Coastal Consultants.

Background

On October 19, 2010, the Town received two (2) proposals in response to our request for proposals (RFP) for the above referenced project. The RFP was sent to eight (8) consulting firms, including the Town's Designated Engineers (TDEs) and various firms with Hudson River Estuary project experience.

The Engineering Division and the Parks Department have reviewed these proposals and evaluated their qualifications based on previous Hudson River Estuary project experience, proposed project scope, proposed fee and project schedule. The two firms that submitted proposals, M.J. Engineering & Land Surveying, P.C. and Ocean and Coastal Consultants Engineering, P.C. were interviewed the week of November 1st to review in detail their respective qualifications.

Based on the group evaluation process, rankings, and the interviews conducted, the consensus of the evaluation team was to enter into a contract with Ocean and Coastal Consultants Engineering, P.C.

FUNDING:

The primary source of funding for this study comes from the New York State Department of Conservation (NYS DEC) Hudson River Estuary Program (\$24,750). The Town match of \$8,550, as proposed in the approved grant, combined with the grant money will cover the OCC's proposed project fee of \$31,000. The Town's match was previously approved from the Parkland Set Aside Fund at the October 28, 2009 Town Board meeting.

RECOMMENDATION:

Based on our review, we recommend that the Town Board award this contract to Ocean and Coastal Consultants for \$31,000, subject to the Town Attorneys approval, and that the Board authorize Supervisor Messina to execute a contract with Ocean and Coastal Consultants for this project.

For your reference, copies of the original proposals are available in the Town Clerk's office. Please feel free to contact me if you have any questions in this regard.

DELMAR, NEW YORK 12054

(518) 439-4955 x1128

Fax: (518) 439-5808

Email: jcansler@townofbethlehem.org

To: **Members of the Bethlehem Town Board**

From: **Josh Cansler, Commissioner of Public Works**

Date: **November 17, 2010**

Subject: **Replacement of 1993 Crane/Service Truck in Field Operations Division.**

Requested Action

Request from the Commissioner of Public Works for the Town Board to award the purchase of a new Crane/Service Truck from Van Bortel Ford for \$124,000.00. This truck will be funded from the proceeds of the August 6th, 2010 bond anticipation note. The bond resolution authorizing acquisition of various equipment for the Water and Sewer Districts, not to exceed \$545,000, was approved at the May 12th, 2010 Town Board meeting. Debt service will be through the Sewer Fund Budget.

Background

The DPW Field Operations Division is currently using a 1993 Crane/Service Truck to lift heavy equipment such as pumps, motors, pipes, etc. that need to be repaired or replaced. Our current crane truck, in addition to being old and unreliable, is too small to safely lift much of the equipment we need to repair. Most of the pumps and motors at our new sewer pump stations are heavier and larger than at the older stations. We've replaced the electric motor twice and the cable 3 times on our existing unit. Our employees have stated that they are worried about the capacity of the crane and are concerned that the crane may fail causing damage to equipment. They are also concerned with their own personal safety.

Last month the Town advertised for bids to purchase a new crane/service truck. Five bids were received. Van Bortel Ford of East Rochester, NY, was the low bidder at \$124,000. The next lowest bid was \$130,828. We have reviewed the submitted bid information and their bid meets or exceeds all of our required specifications.

Recommendation

Recommend award of this purchase from Van Bortel Ford of a new Crane/Service Truck at a bid price of \$124,000.00.

TOWN OF BETHLEHEM
PaTHs 4 Bethlehem Committee
445 DELAWARE AVENUE
DELMAR, NEW YORK 12054

To: Supervisor Messina and Town Board Members
From: PaTHs 4 Bethlehem Committee
Subject: Committee Update and Action on Committee Resolution and Resources
Date: November 17, 2010
Cc: M. Morelli, N. Lanahan, G. Saggendorph, P. Penman, N. Moquin, T. Beebe, E. Deyoe
Enclosed: Town of Bethlehem Bicycle and Pedestrian Priority Network, Town of Bethlehem Evaluation Process for New Pathway Investment Guide, PaTHs 4 Bethlehem Committee Resolution

This memo serves as an update on the PaTHs 4 Bethlehem Committee (PaTHs Committee), since its presentation to the Town Board at the August 25, 2010 meeting. Town Board action at the meeting directed the PaTHs Committee to implement the following two short term recommendations:

- Schedule a public meeting to present the Evaluation Process for New Pathway Investment (Evaluation Process), and Bicycle and Pedestrian Priority Network (Priority Network) to the public
- Draft a Resolution to establish the PaTHs 4 Bethlehem Committee as a standing Committee

October 6, 2010 Public Meeting

On the evening of October 6, 2010, the PaTHs Committee held a public meeting at the Town Hall Auditorium to present to and receive feedback from the public on the Evaluation Process and Priority Network. Meeting announcements were posted on the Town of Bethlehem, Bethlehem Central School District, and Bethlehem Chamber of Commerce websites, Bethlehem Public Access Television Channel 18, Spotlight Newspaper, Bethlehem e-Newsletter, and community locations such as Town Hall, Library, and Parks and Recreation Building. Participants (approximately ten) provided favorable comments on the Evaluation Process (see final document attached) and suggested low cost improvements such as “share the road” signs and “sharrow” pavement markings would improve awareness of bicycle travel along the Town’s roadways. Additionally, participants responded favorably to the Priority Network and identified several roadways in the southern part of the Town which should be included in the Priority Network. These roadways have been added to the final Priority Network (see attached) following review by the PaTHs Committee at its October meeting.

PaTHs 4 Bethlehem Committee Resolution

At the October 26, 2010 PaTHs Committee meeting, Committee members discussed the components of a resolution to establish the Committee as a standing Committee. Based on the Committee’s discussions, Town Staff drafted and the Committee reviewed and approved the attached “Establishment/Purpose of the PaTHs 4 Bethlehem Committee” Resolution for submittal to the Town Board.

The Resolution establishes the Committee size, member terms, identifies potential stakeholder groups, and meeting procedures, etc. Furthermore, the Resolution recognizes the direction provided by the Town Comprehensive Plan, Complete Streets Resolution, and PaTHs Committee

resources (Evaluation Process and Priority Network) to address safe and efficient bicycle and pedestrian mobility in the Town.

More specifically, for the Board to take action and implement use of the Evaluation Process and Priority Network, the Resolution includes the following responsibilities:

Bicycle and Pedestrian Priority Network

- a. “The PaTHs Committee shall maintain the Bicycle and Pedestrian Priority Network and review appropriate changes, as it deems necessary, on an annual basis”.
- b. “Town Departments shall use the Bicycle and Pedestrian Priority Network when following the “Evaluation Process for New Pathway Investment Procedures/Users Guide”, during development of bicycle and pedestrian grant applications, and addressing the Town’s Complete Streets Resolution”.
- c. “The Town Planning Board shall refer to the Bicycle and Pedestrian Priority Network as a planning tool to assist in determining the need for bicycle and pedestrian accommodations during its review of site plan and subdivision applications”.

Evaluation Process for New Pathway Investment

- a. “The PaTHs Committee shall maintain the “Evaluation Process for New Pathway Investment Procedures/Users Guide” and review appropriate changes, as it deems necessary, on an annual basis”.
- b. “Town Departments shall use the “Evaluation Process for New Pathway Investment Procedures/Users Guide” during the development of bicycle and pedestrian grant applications, and when prioritizing pathway investment projects”.

Committee Members Vacancy

At this time, three Committee members have informed Town Staff that they have taken on additional volunteer responsibilities and are unable to continue their volunteer commitment to the Committee. As such, three positions on the Committee are now vacant.

Town Board Action

1. Approve the “Establishment/Purpose of the PaTHs 4 Bethlehem Committee” Resolution. This action will also implement use of the Evaluation Process and Priority Network by the PaTHs Committee, Town Departments, and Planning Board.
2. Assign the following existing Committee Members to the terms listed:

Committee Member	Term
Anne Benware	3 Year
Scott Lewendon	3 Year
Daniel Lewis	3 Year
Katherine McCarthy	3 Year
Henry Peyrebrune	3 Year

Committee Member	Term
Mark Jordan	2 Year
Mark Lewis	2 Year
Caleb Wistar	2 Year
Vacant	2 Year
Vacant	2 Year
Vacant	2 Year

3. Conduct the appropriate process to fill the three vacant positions by the Committee's next meeting, January 25, 2011.
4. Direct/Task the Committee to begin work on developing the Long Term Recommendations outlined in the Committee's August memo to the Town Board (see excerpt attached).

Next Steps

1. The Committee Resolution, Evaluation Process, and Priority Network will be forwarded to Town Departments (i.e. DEDP, Public Works, Highway, Parks and Recreation, and Police) and Planning Board so they are informed of their potential responsibilities in utilizing these resources as they pertain to their respective roles for bicycle and pedestrian mobility in the Town.
2. The PaTHs Committee will begin work on the Long Term Recommendations at its January 25, 2011 meeting.

Resolution No. XX

**TOWN OF BETHLEHEM
RESOLUTION
ESTABLISHMENT/PURPOSE OF THE PATHS 4 BETHLEHEM COMMITTEE**

WHEREAS, a goal of the Town of Bethlehem Comprehensive Plan is to improve mobility – the ability of people, regardless of age and status, to engage in desired activities throughout the Town; and,

WHEREAS, the Town of Bethlehem Comprehensive Plan recommends maintaining and enhancing bicycle and pedestrian connections within neighborhoods, and between neighborhoods and hamlet centers; and,

WHEREAS, the Bethlehem Town Board established a PaTHs 4 Bethlehem Committee (Pathways to Homes, Hamlets, and Healthy Hearts Committee) on February 11, 2009 to address bicycle and pedestrian mobility in the Town; and,

WHEREAS, the Bethlehem Complete Streets Resolution adopted August 12, 2009, recognizes bicyclists and pedestrians as equally important as motorists in the planning and design of all new street construction and street reconstruction undertaken by the Town; and,

WHEREAS, the PaTHs 4 Bethlehem Committee (PaTHs Committee) recommended in its *Accomplishments, Recommendations, and Next Steps Memo* to the Town Board, dated August 16, 2010, said Committee to be established as a standing Committee by resolution and assign Committee member terms, and identify the Committee's purpose; and,

WHEREAS, the PaTHs 4 Bethlehem Committee (PaTHs Committee) recommended in its *Accomplishments, Recommendations, and Next Steps Memo* to the Town Board, dated August 16, 2010, the establishment of a Bicycle and Pedestrian Program addressing the 3 E's, Engineering, Education, and Enforcement for bicycle and pedestrian mobility; and,

WHEREAS, the Town Board at its August 25, 2010 meeting directed the PaTHs Committee to draft a resolution establishing the Committee as a standing committee.

NOW, THEREFORE, BE IT RESOLVED, that the PaTHs Committee is hereby established as a standing committee and its purpose is to provide advisory information to the Town Board with regards to development and implementation of a program addressing safe and efficient bicycle and pedestrian mobility in the Town including, but not limited to, Engineering, Education, and Enforcement; and be it

FURTHER RESOLVED, that any PaTHs Committee shall work towards completing tasks as assigned/directed by the Town Board; and be it

FURTHER RESOLVED, that any PaTHs Committee shall include eleven citizen (11) members that represent a cross-section of the community as appointed by the Town Board, which may include, but not limited to, representation from School Districts, bicycle community, pedestrian community, senior organizations, land conservancies, etc.; and be it

FURTHER RESOLVED, that any PaTHs Committee have a defined term of service staggered in length among the various members. Initial terms of service shall consist of (2) two years for (6) members and (3) years for (5) members. Subsequent terms of service shall consist of (2) years; and be it

FURTHER RESOLVED, that in the event of a vacancy on any PaTHs Committee, the Town Board shall appoint a new member to fulfill the unexpired term; and be it

FURTHER RESOLVED, that the Town Supervisor may appoint Town Staff to assist any PaTHs Committee and the following Town Departments may serve as technical resources: Department of Economic Development and Planning, Public Works, Parks and Recreation, Police, and Highway, at the discretion of the Town Supervisor; and be it

FURTHER RESOLVED, that the Town Supervisor may appoint a Committee member as Chairperson; and be it

FURTHER RESOLVED, that any PaTHs Committee may reach out to other organizations and stakeholders, including but not limited to NYSDOT, Albany County, and CDTC for professional expertise in bicycle and pedestrian mobility; and be it

FURTHER RESOLVED, that any PaTHs Committee shall meet once a month (as necessary); and be it

FURTHER RESOLVED, that any PaTHs Committee shall give public notice of its meetings; and be it

FURTHER RESOLVED, that any PaTHs Committee shall post a meeting summary of its meetings to the Town's website; and be it

FURTHER RESOLVED, that any PaTHs Committee, upon expiration of its existence or completion of its mission or part thereof, shall issue a written report to the Town Board of the activities it undertook; and be it

FURTHER RESOLVED, that any PaTHs Committee shall not have independent regulatory powers; and be it

FURTHER RESOLVED, that any PaTHs Committee shall work towards developing the Long Term Recommendations as outlined in its *Accomplishments, Recommendations, and Next Steps Memo* to the Town Board, dated August 16, 2010; and be it

FURTHER RESOLVED, that any PaTHs Committee shall maintain the Town of Bethlehem Bicycle and Pedestrian Priority Network and review appropriate changes, as it deems necessary, on an annual basis; and be it

FURTHER RESOLVED, that Town Departments shall use the Town of Bethlehem Bicycle and Pedestrian Priority Network when following the "*Evaluation Process for New Pathway Investment Procedures/Users Guide*", during development of bicycle and pedestrian grant applications, and addressing the Town's Complete Streets Resolution; and be it

FURTHER RESOLVED, that the Town Planning Board shall refer to the Town of Bethlehem Bicycle and Pedestrian Priority Network as a planning tool to assist in determining the need for bicycle and pedestrian accommodations during its review of site plan and subdivision applications (and other applications), and be it

FURTHER RESOLVED, that any PaTHs Committee shall maintain the “*Evaluation Process for New Pathway Investment Procedures/Users Guide*” and review appropriate changes, as it deems necessary, on an annual basis; and be it

FURTHER RESOLVED, that Town Departments shall use the “*Evaluation Process for New Pathway Investment Procedures/Users Guide*” during the development of bicycle and pedestrian grant applications, and when prioritizing pathway investment projects, and be it

FURTHER RESOLVED, that a copy of this resolution shall be provided to all members appointed to any PaTHs Committee.

On a motion by _____, seconded by _____, and by a vote of ____ for, ____ against

and ____ absent, this RESOLUTION was adopted on _____.

Town Supervisor

I. Introduction

The PaTHs 4 Bethlehem Committee (Pathways to Homes, Hamlets and Healthy Hearts) was established by the Town Board in March 2009 to address pedestrian and bicycle mobility within the Town, as the result of a recommendation of the 2009 CACC Report on Open Space. The Town Board tasked the Committee to create a Bicycle and Pedestrian Priority Network Map. During the Priority Network Map's development, members identified the need to easily and fairly prioritize the Town's investment in pathway projects; in other words, the construction of bicycle and pedestrian accommodations along roadways identified on the Priority Network Map. Subsequently, the Committee embarked on a 17-month process to establish an evaluation process for new pathway investment. The process evaluates the benefits and costs of proposed projects, considers the use of grant opportunities to assist in construction costs, and ultimately results in an overall project evaluation score that can be compared to other bicycle and pedestrian projects.

This evaluation process addresses the Town's ***Complete Streets Resolution*** and ***Climate Smart Community Resolution***, both adopted by the Town Board in 2009. The Town's development and adoption of both resolutions signifies the importance that is placed on bicycle and pedestrian travel, subsequently resulting in capacity and efficiency increases of the Town's road network, reduced traffic congestion by improving mobility options, reduced greenhouse gas emissions, and improvements to the general quality of life; and the public's awareness that safety, health and mobility are part of being a quality community. Bicycling and walking are important forms of transportation and recreation in our community and contribute to health, fitness, neighborhood vitality, social interaction, and economic development.

The purpose of this guide is to document the process the Town should follow when conducting an evaluation for a new pathway investment project. The manual includes steps the user (evaluator) should take to complete the evaluation and also provides background information on how the process was developed.

II. Evaluation Process for New Pathway Investment

Overview

The process for evaluating the merits, including costs and benefits, of a new pathway investment project are outlined in the flow chart on page 4. The purpose of the evaluation process for new pathway investment is to provide Town decision makers and professional staff with a tool to assist in prioritizing pathway investment projects. The tool is intended to be used as a foundation and a first step for evaluating proposed pathway investment projects, and not used as the ultimate decision maker. While the Town's current practice is for professional staff (Engineering, Planning, and Highway Departments) to identify projects to address grant solicitations, up until this point there has been no formal process in evaluating the merits of a proposed project.

The evaluation process is intended to be used on new pathway investment projects located within existing public right-of-way (State, County, Town roads). Utilizing the pathways definition from the 2009 CACC Report on Open Space, the Town's pathways network is made up of sidewalks, multi-use paths, bicycle lanes, and striped/widened shoulders. These accommodations are typically found within public right-of-way. The overall goal is to address areas that need improvement in order to improve a roadway's safety and efficiency for pedestrian and bicycle users.

The overall evaluation process provides quantitative and qualitative values to projects in an effort to prioritize one project over another.

The evaluation process is intended to be used on new pathway investment projects located within existing public right-of-way (State, County, Town roads).

Bethlehem Comprehensive Plan

In August 2005, the Town of Bethlehem adopted its first ever Comprehensive Plan after eighteen (18) months of community deliberation about the Town's future. Of significant importance associated with this manual is the Plan's goal to improve mobility – the ability of people regardless of age and status, to engage in desired activities at moderate cost to themselves and society – throughout the Town. This goal is associated with residents ability to safely and efficiently travel around the Town as pedestrians and bicyclists. The Comprehensive Plan's Recommendations identified:

- Maintaining and enhancing pedestrian connections within and between neighborhoods, recreation facilities, and hamlet centers.
- Provide adequate bicycle facilities and establish a signed system of bicycle routes throughout the Town.
- Maintain and improve walkability with the hamlets.

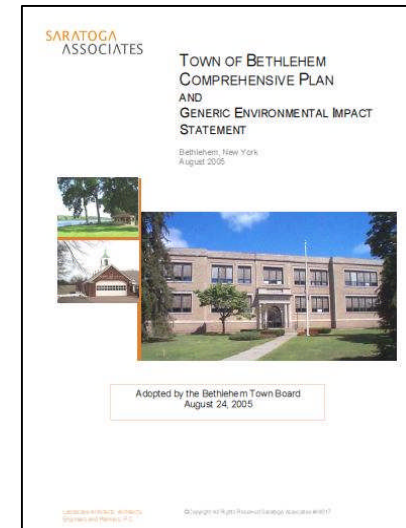

The evaluation process outlined in this manual will help the Town address the Comprehensive Plan's recommendations.

Users

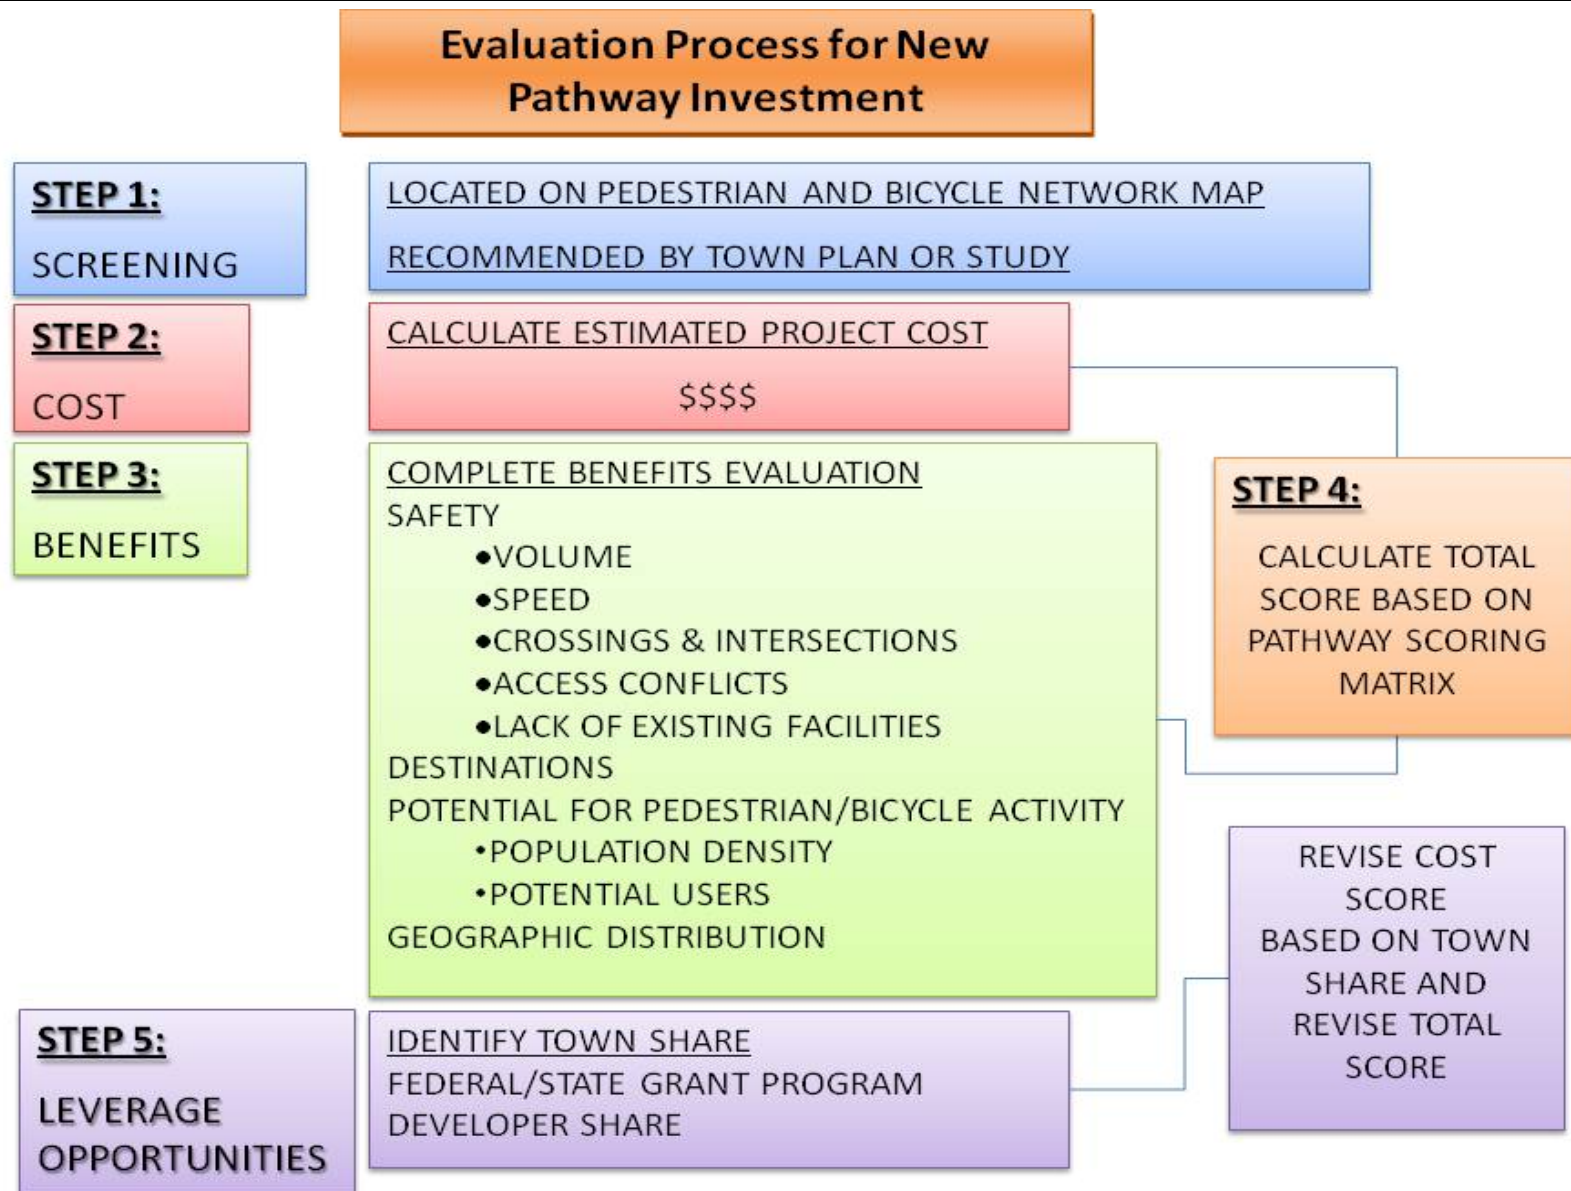

Users (or evaluators) of the evaluation process for new pathway investment will include representatives from the Town's Public Works (DPW) and Highway departments, and Department of Economic Development and Planning (DEDP).

Process

The evaluation process that follows will result in an overall pathway project score of A, B, C, D, or F, with A representing a high score for project investment (project is beneficial), and F representing a poor score for project investment (project is poor).

The 2005 Comprehensive Plan recommended the Town maintain and enhance pedestrian connections within and between neighborhoods, recreation facilities, and hamlet centers.

The five step evaluation process is outlined below.

Step 1 – Screen projects based on Priority Network, and/or Recommendation of Town Plan/Study

The first step, “Screening” requires the review of the Bicycle and Pedestrian Priority Network Map (Priority Network Map), and Town Plans and Studies, to determine if the proposed project is a recommendation of these resources. If a project is not located on the Bicycle and Pedestrian Priority Network, or recommended in a Town Plan or Study, it shall not receive an evaluation. A list of proposed projects that do not receive an evaluation should be maintained and periodically reviewed by the PaTHs 4 Bethlehem Committee to determine their appropriateness as additions to the Priority Network Map.

Step 2 – Estimate Cost of the Project

Step 2 requires the calculation of the preliminary budget level project cost based on typical Town estimating practices utilizing NYSDOT weighted average unit costs, RS Means unit, and recent Town bidding experience. The Town’s DPW has experience in preparing cost estimate calculations and would continue to conduct this task.

The Town’s pathways network is made up of sidewalks, multi-use paths, bicycle lanes, and striped/widened shoulders...
(Bethlehem Recommendations on Open Space Needs and Opportunities Report-CACC, July 2009)

Step 3 – Evaluate Project Benefits based on Benefits Evaluation Table

Step 3 consists of evaluating the benefits of the proposed project to the Town. Benefits include safety, presence of destinations, potential for pedestrian and bicycle activity, and geographic distribution. The goal of identifying a project’s benefits is to gauge whether the project will result in a safe and efficient trip for bicyclists and pedestrians, and recognize that destinations and users would benefit from the proposed bicycle and/or pedestrian accommodations. A Benefits Evaluation Criteria Table was developed to create a benefits score. Section IV discusses the process for completing the Benefits Evaluation Criteria Table.

Step 4 – Calculate Project Score based on Pathway Scoring Matrix

Step 4 utilizes the cost, calculated in Step 2, and benefits, calculated in Step 3 to determine a total project score (A, B, C, D, or F). A Pathway Scoring Matrix was developed to fairly account for project costs and benefits. Section III discusses the Pathway Scoring Matrix. An overall project score of A represents a high score for project investment (project is beneficial), while a project score of F represents a poor score for project investment (project is poor). As a result of the evaluation process, a tiered list of projects could be developed (Tier I, II, III) based on high, medium, and low evaluation scores. This process provides flexibility for the Town to choose among several projects within a Tier I list in response to a grant solicitation.

Step 5 – Leverage Opportunities

Step 5 requires the review of Federal and/or State (or other) grant opportunities to assist the Town in its pathway investment project. If a proposed pathway project meets the criteria of a Federal or State (or other) grant application, the Town project cost developed in Step 4 should be adjusted. For example, if a proposed Town pathway project has a total cost of \$500,000.00, and the grant opportunity accounts for 80% of the total project cost, the Town's share for the project would be \$100,000.00. As such, the project cost would be adjusted accordingly to reflect only the new Town cost (as a result of the leveraged opportunity).

III. Town of Bethlehem Bicycle and Pedestrian Priority Network

The Committee developed a $\pm$ 95-mile bicycle and pedestrian priority network that the Town should make more accommodating for safe and efficient bicycle and pedestrian travel. It is envisioned that this network could become a continuous system of usable accommodations. These roadways were identified since they are parts of major travel routes throughout the Town. They connect major destinations (schools, shopping areas, recreation facilities, community facilities) with each other and residential neighborhoods. The network does not include many local low vehicle volume and speed roadways. *As stated in the Town's Complete Streets Resolution, adopted by the Town Board in August 2009, local Town streets with low vehicle volumes and slow travel speeds safely and efficiently accommodate bicyclists and pedestrians. As such, Town pathway investment for bicycle and pedestrian accommodations should not be directed to local roadways not identified on the Network Map.*

In the case of bicyclists, the network accommodates commuter and recreational travel. The roads highlighted in red reflect those that would be more conducive to bicycle travel only due to adjacent development (land uses) and roadway characteristics. At its January 2010 meeting, the Committee received input on bicycling routes from the President of the Mohawk Hudson Cycling Club, Oliver "Skip" Holmes. Mr. Holmes provided his experiences and expertise as an avid commuter and recreational bicyclist in the Town. The Committee also referenced a "Bicycle Back Roads" bicycle route map, prepared by the Bethlehem Citizens for Pedestrian Safety Committee.

It is important to note that the Committee utilized the Capital District Transportation Committee's (CDTC) Bicycle and Pedestrian Priority Network, developed by the CDTC Bicycle and Pedestrian Task Force, as a model for the Town's network development. Appendix A provides a large sized Bethlehem Bicycle and Pedestrian Priority Network Map and lists the roadways identified on the Town's and CDTC's networks. Also in Appendix A is a map of the CDTC Bicycle and Pedestrian Priority Network for Bethlehem and the Capital District (Albany, Rensselaer, Saratoga, and Schenectady counties).

Town of Bethlehem
Evaluation Process for New Pathway Investment
Procedures/Users Guide
FINAL – OCTOBER 26, 2010

Similar to CDTC's network, the Committee felt the Bethlehem Priority Network could:

- Identify desirable bicycle and pedestrian travel corridors
- Serve as a working plan for bicycle and pedestrian travel
- Serve as a starting point for the Town to prioritize local pathway investment

The Bicycle and Pedestrian Priority Network Map is a working map and it is anticipated that additional roadways may be added as the Town develops. It is recommended that the Committee review the Map annually to incorporate revisions, if necessary.

Applications of the Priority Network Map

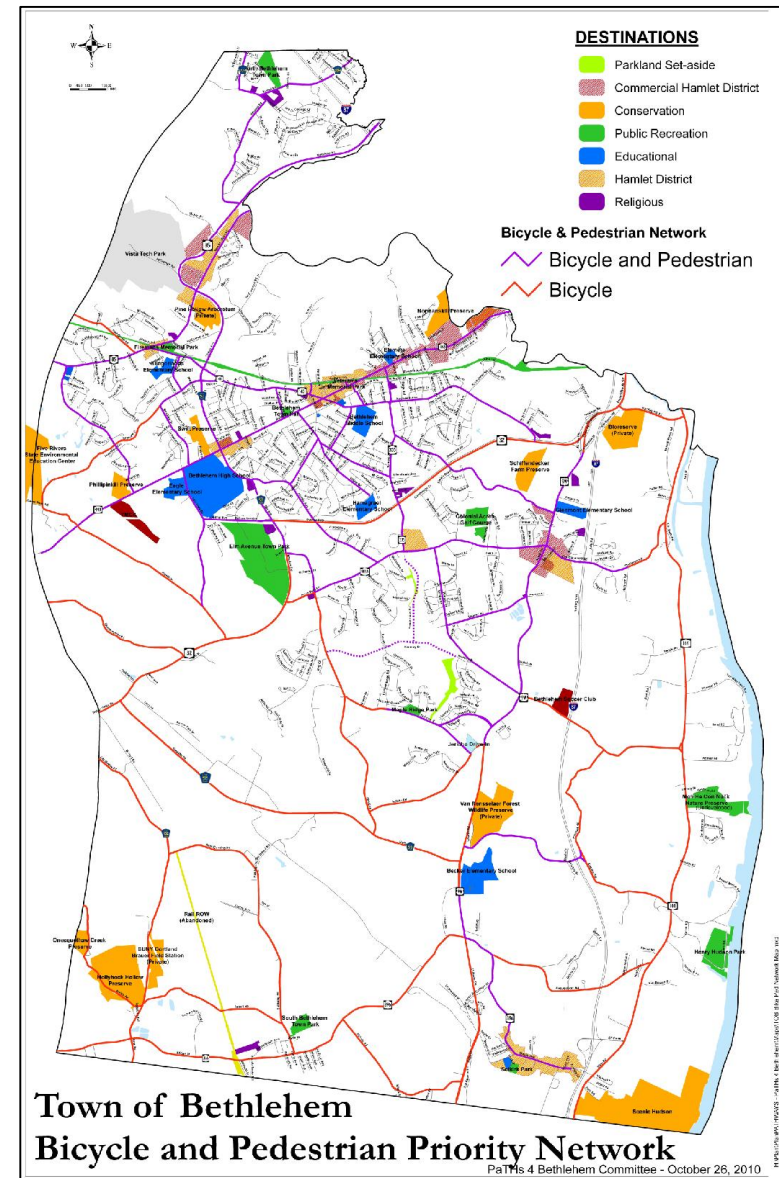

The Priority Network Map should be used in the following applications:

- Evaluation Process for New Pathway Investment

In an effort to maximize benefits of stretched Town funds, only those projects that are located on the priority network should be considered for funding. The evaluation process is described in this manual.

- Land Use Review and Approval (Site Plan/Subdivision applications)

The Planning Board is empowered to review and approve site plan and subdivision applications in the Town. Review and approval of these applications typically entails discussion of pedestrian and/or

bicycle accommodations, since the Board has the authority to require bicycle and pedestrian accommodations within the public right-of-way. The Board also reviews pedestrian accommodations with private developments (i.e. commercial uses). As such, the Planning Board should utilize the Priority Network Map to determine the need for bicycle and pedestrian accommodations if a project is located on a roadway located on the Priority Network.

- Grant Applications

A benefit to the Town for developing and maintaining the Priority Network Map is that the map will be referenced when applying for Federal and/or State (or other) grant opportunities, informing the grantor that the Town has identified its priorities for an overall bicycle and pedestrian travel network. Additionally, the Map can assist NYSDOT or Albany County at the time they design improvements for State and County roadways. In these instances, the Town would advocate to the NYSDOT or Albany County that pedestrian and accommodations be included in a project design based on the Town's adoption of the Priority Network. CDTC utilizes their network map in a similar manner for advancing projects on the Capital District's Transportation Improvement Plan.

- Bethlehem Complete Streets Resolution

As stated in the Bethlehem Complete Streets Resolution (adopted August 2009), where the need for bicyclist and pedestrian facilities has been established or is defined in Town planning documents, including but not limited to the Bicycle and Pedestrian Priority Network identified by the PaTHs 4 Bethlehem Committee, the Highway Superintendent shall consider the addition of safe bicyclist and pedestrian facilities in new street construction and street reconstruction undertaken by the Town of Bethlehem. The addition of the bicyclist and pedestrian facilities shall be consistent with the scope of the improvement project, context sensitive to the surrounding environment, and shall not be disproportionate with the cost of the larger project.

IV. Benefits Evaluation Criteria Table

Overview

Through several meetings, the Committee identified criteria that should be used to recognize the benefits of proposed pathway projects. The criteria are common, in that they are found throughout Federal and State (or other) grant applications that provide funding for pathway investment. As such, the completion of the benefits evaluation criteria table will also provide useful information to the staff person preparing a grant application.

Bicycle and Pedestrian Priority Network Map or Town Plan/Study

The initial screening of a project requires the evaluator to review the Bethlehem Bicycle and Pedestrian Priority Network (see page

Criteria	Measure	Rating	Response	Points
<u>Bicycle and Pedestrian Priority Network Map or Town Plan/Study</u>	Review map to determine if proposed project is located on the bicycle and pedestrian network and/or if project is recommended in Town Plan/Study. If either is yes, proceed to additional evaluation criteria listed below.	Yes No Project is recommended in Town Plan/Study (BONUS 10 points)		

8) to determine if the proposed project is located on a roadway identified as the bicycle and pedestrian network in Bethlehem. The evaluator shall also review all Town Plans or Studies (i.e. Route 9W Corridor Study, Delaware Avenue Hamlet Enhancement Study, etc.) to determine if the proposed project is a recommendation of a Town plan or study. If

If a project is not located on the Bicycle and Pedestrian Priority Network, or recommended in a Town Plan or Study, it shall not receive an evaluation.

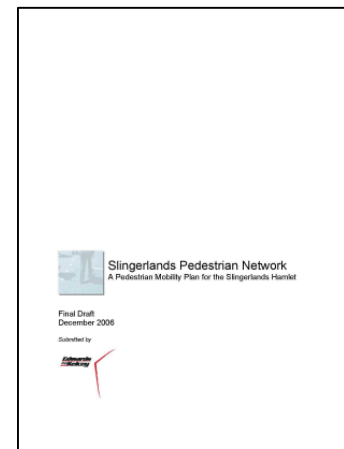

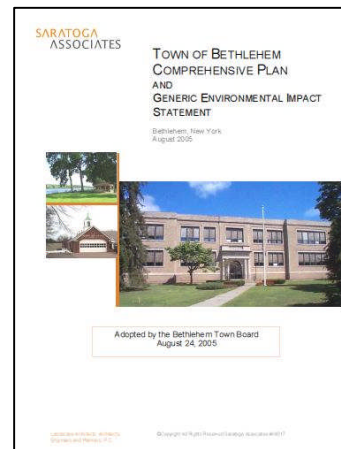

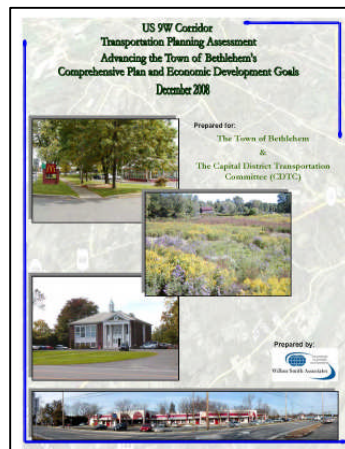

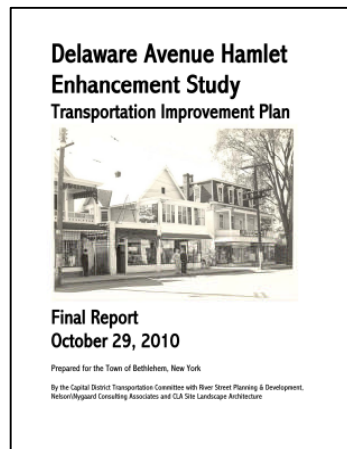

either of these reviews results in the project's identification, the evaluator shall enter "Yes" in the "Response" column, and the evaluator shall proceed to evaluate the benefits of the proposed project using the criteria listed below. Recognizing the extensive public input (Study Advisory Committee meetings, public meetings, Town Board adoption etc.) that occurs during the development of Town Plans and Studies, if a proposed project is identified in a Town Plan or Study, the project shall receive a bonus 10 points (enter points in "Weighted Score" column), in an effort to advance

Town of Bethlehem
Evaluation Process for New Pathway Investment
Procedures/Users Guide
FINAL – OCTOBER 26, 2010

recommendations from Town Plans and Studies. Examples of Town Plans or Studies include (but are not limited to):

- US Route 9W Corridor Transportation Planning Assessment
- LUMAC
- Delaware Avenue Hamlet Enhancement Study
- Town of Bethlehem Comprehensive Plan
- Slingerlands Pedestrian Network Plan

Safety

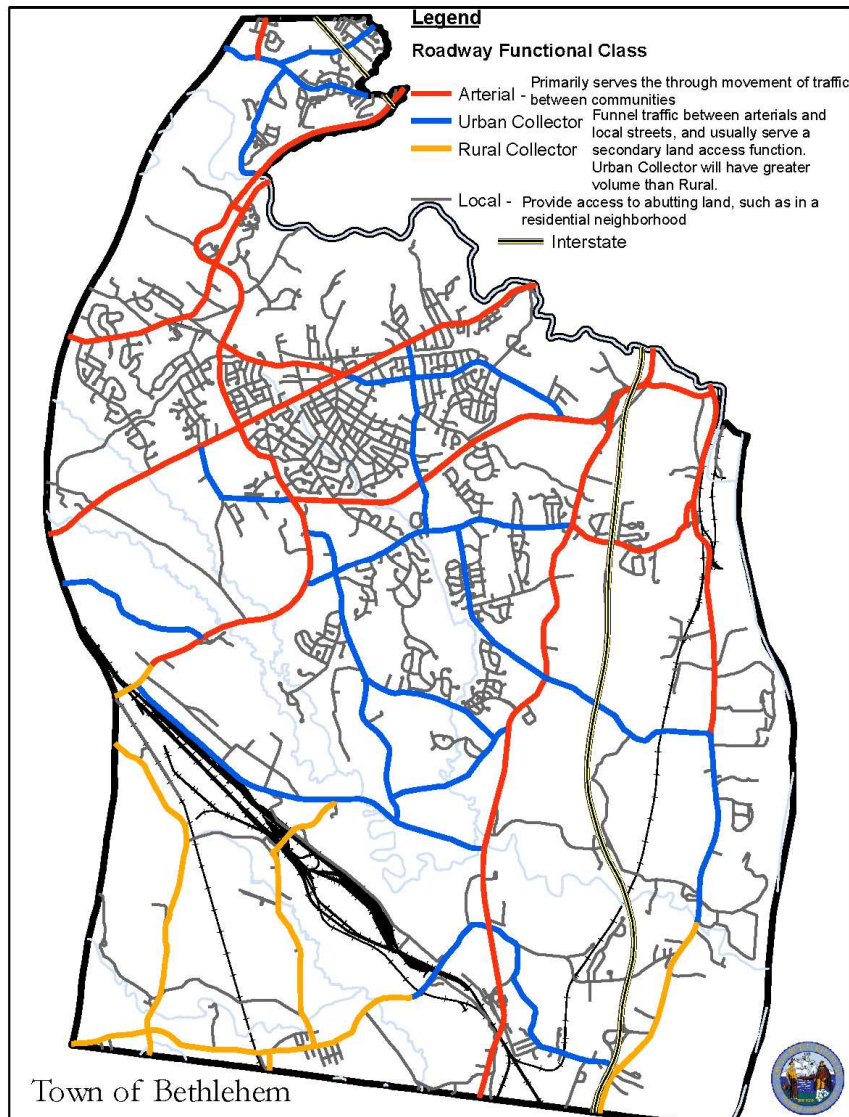

This criteria looks at several factors that contribute to roadway safety (potential for accidents between vehicles and bicyclists/pedestrians). Four roadway characteristics contribute to the potential number and severity of bicycle and pedestrian accidents. They include vehicular volume, speed, crossings and intersections, and access conflicts. The lack of existing pedestrian and bicycle accommodations contributes to safety, as well. Safety criteria accounts for 39% of the total benefits evaluation score. See Section VI for a discussion of the process utilized to determine appropriate points (max. – min.) for Safety criteria.

Volume

Roadway volume directly relates to the pedestrian and bicycle user's exposure, and affects the quality of the roadway environment for pedestrian and bicyclists, especially when proper accommodations for these users are absent.

***Roadway Functional Classification
and Average Annual Daily Traffic***

Volume	Arterial (principal and minor) - AADT >= 8000 (7 points)
Roadway volume directly relates to the users exposure, and affects the quality of the roadway environment for pedestrian and bicyclists, especially when proper accommodations for these users are absent. Review Town of Bethlehem Roadway Functional Classification Map to determine the functional classification of the roadway proposed for a bicycle and pedestrian improvement project. <i>(If evaluator perceives that roadway function does not reflect typical AADT, review AADT to apply points).</i>	Urban Collector – AADT 2000 – 7999 (5 points)
	Rural Collector – AADT 500 – 1999 (3 points)
	Local Residential – AADT <= 1999 (0 point)
WEIGHT:18%	(max 7 points)

HOW TO: The evaluator shall review the Town of Bethlehem Roadway Functional Classification Map to determine the functional classification of the roadway proposed for a bicycle and pedestrian improvement project. The roadway functional classification that is identified shall be entered into the “Response” column, and associated points entered into “Weighted Score” column.

Note that if the evaluator perceives that roadway function does not reflect typical Average Annual Daily Traffic (AADT) volume, the roadway’s AADT shall be reviewed to accurately determine roadway function. Volume data, collected through traffic counters (Automatic Traffic Recorders) may be available through the NYSDOT for State-owned roadways, Albany County for County-owned roadways. Also, Traffic Impact Studies (TIS) prepared for site plan or subdivision applications (for review by the Town Planning Board) may also contain AADT for State, County and Town roadways. If the TIS only includes peak hour traffic volumes, the evaluator can extrapolate the AADT based on standard industry practice where the peak hour volume represents ten percent (10%) of a roadway’s AADT.

If the Town were to consider collecting volume data, it may want to take advantage of NYSDOTs County Counter Initiative, which is also available to larger suburban

municipalities. Through the NYSDOT Initiative, traffic counters and software are permanently loaned to municipalities interested in collecting traffic data, and in return the municipality is required to submit traffic data collected on State-owned roadways, and other Town or County-owned roadways. The NYSDOT also provides appropriate training and technical support of the traffic counters.

The Roadway Functional Classification Map was developed based on functional classification data provided by NYSDOT and Albany County Department of Public Works. Functional classification data provided by these entities included AADT volume for arterial and collector roadways. Based on this data, the arterial, urban collector, rural collector, and local residential roadway AADT volume ranges were developed unique to the Town of Bethlehem.

Roadway volume accounts for 18% of the safety score (max. 7 points) See Section VI for a discussion of the process utilized to determine appropriate points (max. – min.) for roadway volume.

Speed

Speed is directly related to severity of the accident.

HOW TO: The evaluator should review the posted speed of the roadway proposed for a bicycle and pedestrian improvement project.

Speed Speed is directly related to severity of the accident. Review the posted speed of the roadway proposed for a bicycle and pedestrian improvement project. <i>(If evaluator perceives that operating speed does not reflect posted speed, review operating speed to apply points).</i>	Speed 50+mph (5 points) Speed 41 - 49 mph (3 points) Speed 31 – 40 mph (1 points) Speed 25 – 30 mph (0 point)	(max 5 points)
WEIGHT: 13%		____MPH

If the evaluator perceives that operating speed does not reflect posted speed, review operating speed data to apply points. Speed data may be available through the NYSDOT for State-owned roadways, Albany County for County-owned roadways, and Traffic Impact Studies for local, and State and County roadways, prepared for site plan or subdivision applications before the Town Planning Board. Data collected through automatic traffic recorders (ATRs) typically provides vehicle speed data (max, min, average, 85%ile, etc.). The evaluator should use the 85%ile speed to reflect operating speed if real data is being used in lieu of posted speed.

Posted speed (or operating speed) accounts for 13% (max. 5 points) of the safety score. See Section VI for a discussion of the process utilized to determine appropriate points (max. – min.) for the speed criteria.

Crossings and Intersections

The quantity and complexity of a roadway crossing directly relates to exposure for potential accidents. Review the number, and complexity of the roadway crossing(s) in the project area. (Complex crossings may include major principal arterials, such as Delmar Bypass, Route 9W, active at-grade railroad). **Do not count**

intersections at the project boundaries since it is anticipated that all projects will have intersections at their boundaries.

Designers of pedestrian and bicycle accommodations should note that the accommodations should carry through the intersection. Note that commercial driveways that are accessed by traffic signals are treated as intersections. For example, Route 9W and Bethlehem Town Center access drive. The evaluator should add one (1) point for each complex intersection crossed.

HOW TO: To determine the number of crossings and intersections the evaluator should utilize the Town's Geographic Information System (GIS) program, or ESRI ArcMap for those who have the capability of utilizing the desktop software. The evaluator should also use the latest aerial photo imagery to identify and tally the number of intersections crossed in the project area. This includes intersections on both sides of the project roadway.

Crossings and intersection ranges (max. – min.) were developed by taking a sample of potential pathway projects in the Town and reviewing the number of crossings and intersections within a ½ mile along the project corridor.

Crossings and Intersections The quantity and complexity of a roadway crossing directly relates to exposure for potential accidents. Review the number, and complexity of the roadway crossing(s) in the project area. (Complex crossings may include major principal arterials, such as Delmar Bypass, Route 9W, active at-grade railroad). Do not include intersections at the project boundaries. <i>Commercial driveways that are accessed by traffic signals are treated as intersections.</i> WEIGHT: 23%	9+ Intersections (9 points) 6 – 8 Intersections (6 points) 3 – 5 Intersections (3 points) 0 – 2 Intersections (0 points) Add 1 point for each complex intersection crossed. (max 9 points + complex intersections)	INTERSECTIONS

Town of Bethlehem
Evaluation Process for New Pathway Investment
Procedures/Users Guide
FINAL – OCTOBER 26, 2010

Crossing and Intersections accounts for 23% (max. points + complex intersections) of the safety score. See Section VI for a discussion of the process utilized to determine appropriate points (max. – min.) for the criteria

Access Conflicts

High volume, multiple driveways create a greater exposure and risk for accidents to the pedestrian and bicyclist.

HOW TO: To determine the number of access conflicts the evaluator should first determine the land use characteristics (residential or commercial) surrounding the project by reviewing aerial photo imagery and the Town's Zoning District Map. This can be conducted with assistance from the Town's Geographic Information System.

Access Conflicts High volume, multiple driveways create a greater exposure and risk for accidents to the pedestrian and bicyclist. Review the access conflict locations within the project area. If the project is located in a commercial Zoning District (General Commercial, Heavy Industrial, Rural Light Industrial, MED) only account for commercial driveways. If the project is located in a residential Zoning District (Res. A, B, C, Core Residential, Rural, Residential Large Lot, Multifamily, PDD) only account for residential driveways. If the project is located in a mixed use Zoning District (Hamlet, Commercial Hamlet, Rural Hamlet, Rural Riverfront) or traverses several Districts review the predominate land use in the project area; to determine which driveway to consider. <i>Commercial driveways that are accessed by traffic signals are treated as intersections.</i> WEIGHT: 15%	<u>Commercial Driveways Crossed</u> 16+ Driveways (6 points) 11 – 15 Driveways (4 points) 6 – 10 Driveways (2 points) 1 – 5 Driveways (1 points)	DRIVEWAYS
	<u>Residential Driveways Crossed</u> 50+ Driveways (6 points) 40 – 49 Driveways (4 points) 30 – 39 Driveways (2 points) 20 – 29 Driveways (1 points) ≤19 Driveways (0 points) (max 6 points)	DRIVEWAYS

If the project is located in a commercial Zoning District such as General Commercial, Heavy Industrial, Rural Light Industrial, MED (see Zoning Law §128-12 C) the evaluator shall only account for commercial driveways. If the project is located in a residential Zoning District such as Res. A, B, C, Core Residential, Rural, Residential Large Lot, Multifamily, PDD (see Zoning Law §128-12 A), the evaluator shall only account for residential driveways. If the project is located in a mixed use Zoning District such as Hamlet, Commercial Hamlet, Rural Hamlet, Rural Riverfront (see Zoning Law §128-12 B) or traverses several Districts the evaluator shall review the predominate land use in the project area to determine which driveway type (residential or commercial) to consider. Finally, utilize the latest aerial photo imagery to identify and tally the number of commercial or residential driveways crossed.

Note that commercial driveways that are accessed by traffic signals are treated as intersections and not counted in this section. For example, the Glenmont Plaza driveway along Feura Bush Road and the Bethlehem Center Shopping Plaza driveway along Route 9W are controlled by traffic signals.

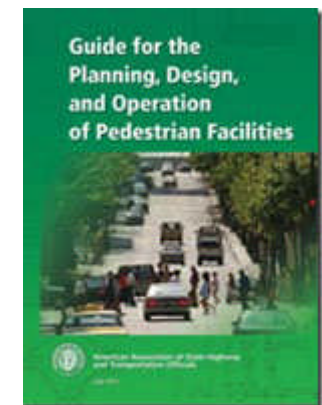

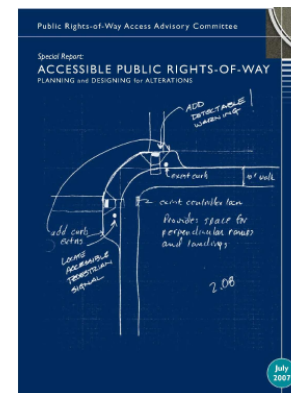

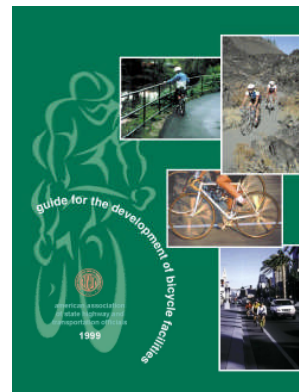

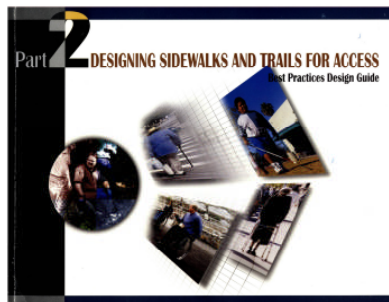

Access conflicts accounts for 15% (max. 6 points) of the safety score. See Section VI for a discussion of the process utilized to determine appropriate points (max. – min.) for the criteria.

Lack of Existing Pedestrian and Bicycle Accommodations

Properly designed pedestrian and bicycle accommodations improve safety and reduce the risk of accidents. The evaluator shall review the project corridor to determine if pedestrian and/or bicycle accommodations exist.

HOW TO: The evaluator shall utilize AASHTO and NYSDOT (Federal and State) bicycle and or pedestrian guidelines/standards to determine if existing accommodations are built to design standards. Widely accepted, Federal and State resources may include:

- AASHTO Guide for the Development of Bicycle Facilities
- AASHTO Guide for the Planning, Design and Operation of Pedestrian Facilities
- AASHTO Designing Sidewalks and Trails for Access
- Accessible Public Rights-of-Way: Planning and Design for Alterations
- NYSDOT Bicycle Facility Design – Chapter 17
- NYSDOT Pedestrian Facility Design – Chapter 18

Lack of Existing Pedestrian and Bicycle Accommodations Properly designed pedestrian and bicycle accommodations improve safety and reduce the risk of accidents. Review the project corridor to determine if pedestrian and/or bicycle accommodations exist. <i>Evaluator should utilize AASHTO and NYSDOT Guidelines/Standards to determine if accommodations are built to design standards.</i> WEIGHT: 31%	(max 6 points) No Pedestrian/Bicycle Accommodations (12 points) Some Pedestrian/Bicycle Accommodations not built to design standards (6 points) Some - Pedestrian/Bicycle Accommodations built to design standards (3 points) Full Ped/Bike Accommodations built to design standards (0 points) (max 12 points)

In addition, when determining appropriate accommodations for bicyclists, the Town should consider using FHWA's Selecting Roadway Design Treatments to Accommodate Bicycles.

Lack of Existing Pedestrian and Bicycle Accommodations accounts for 31% (max. 12 points) of the safety score. See Section IV for a discussion of the process utilized to determine appropriate points (max. – min.) for the criteria.

Destinations

The presence of destinations within a ½ mile of the project corridor directly influences the generation of pedestrian and bicycle trips. Typically, areas of diverse/multiple land uses will generate more pedestrian and bicycle trips than areas with homogenous land uses.

22%	<u>Destinations</u> The presence of destinations with a 1/2 mile of the project corridor directly influences the generation of pedestrian and bicycle trips. Typically, areas of diverse/multiple land uses will generate more pedestrian and bicycle trips than areas with homogenous land uses.	Destinations include Linkages (connections between existing facilities, not extensions), Hamlet Zoning Districts, Commercial Hamlet Zoning Districts, Recreation Areas (i.e., nature preserves, parks, schools), Schools, Albany County Rail Trail, Community Facilities (e.g., Town Hall, Post Office, Library, Religious Institutions, etc.) and Transit stops. <i>The same type of destination can only be counted once.</i>	7+ Destinations (22 points) 6 Destinations (18 points) 5 Destinations (15 points) 4 Destinations (12 points) 3 Destinations (9 points) 2 Destinations (6 points) 1 Destinations (3 Points) (max 22 points)	Response Column Linkage District CH District Recreation School Community Transit Rail Trail	

The Committee identified destinations in the Town that are characterized as places that generate activity, such as shopping areas, community facilities, schools, parks, etc. The evaluator should review the destinations located within ½ mile of the project area by drawing a ½ mile buffer around the project boundary. Destinations include Linkages (connections between existing facilities, not extensions), Hamlet Zoning Districts, Commercial Hamlet Zoning Districts, Recreation Areas (i.e., nature preserves, parks, schools), Schools, Albany County Rail Trail, Community Facilities (e.g., Town Hall, Post Office, Library, Religious Institutions, etc.) and Transit stops. (Note: The same type of destination can only be counted once).

HOW TO: The Bethlehem Bicycle and Pedestrian Priority Network Map includes the locations of destinations in the Town. The evaluator should place a “check” mark next to each destination found in the project area in the response column, and tally the total number of checks to determine the number of destinations.

Destinations account for 22% (max. points 22 points) of the total benefits score. See Section VI for a discussion of the process utilized to determine appropriate points (max. – min.) for the benefits criteria.

Potential for Pedestrian and Bicycle Activity

Potential pedestrian and bicycle activity can be estimated based upon two factors: population density and potential users. The higher the density (housing units per ½ mile radius) the greater the likelihood a large number of pedestrians/bicyclists would be attracted to the pedestrian/bicycle facility.

31%	Potential for Pedestrian and Bicycle Activity Potential pedestrian and bicycle activity can be estimated based upon two factors: population density and potential users.	Population Density The higher the density (housing units per ½ mile radius) the greater the likelihood a large number of pedestrians/bicyclists would be attracted to the pedestrian/bicycle facility. Review the housing density residing within ½ mile of the proposed project for pedestrian facility improvements.	>= 1750 housing units (15.5 points) 1400 - 1749 housing units (12 points) 1050 - 1399 housing units (9 points) 700 - 1049 housing units (6 points) 350 - 699 housing units (3 points) <= 349 housing units (0 points) (max 15.5 points)	_____ Housing Units	
		Potential Users Identify the potential user groups of the pedestrian and bicycle facility based on destinations that are located within or accessed by the project area. (User Groups include: Students, Recreation - with park or facility, Shoppers, Transit, Community Facility) A school can also be used for recreation.	5 users (15.5 points) 4 users (12 points) 3 users (9 points) 2 users (6 points) 1 user (3 point) (max 15.5 points)	_____ Students _____ Shoppers _____ Transit _____ Recreation _____ Community	

Population Density: The evaluator should review the housing density (number of housing units) residing within ½ mile of the proposed project for pedestrian facility improvements.

HOW TO: To determine the number of housing units, utilize the Town’s Geographic Information System desktop program ESRI ArcMap. The first step is to identify the project roadway and create a ½ mile buffer around the roadway. The second step is to “select by location” all the parcels that intersect the ½ mile buffer. Finally, review the selection set (created in step 2) attribute table to identify only residential properties (housing units) based on the NYS Office of Real Property Services land classification code – 200’s and 411. These codes include single family, multiple family homes, and apartments. The

evaluator should count accordingly for multiple units when apartment (attribute 4 units to a building) and two-family, three-family, and multi-family residences/properties are identified.

Potential Users:

HOW TO: To determine potential users that will use the pedestrian or bicycle accommodation review destinations within ½ mile that are located within or accessed by the project area. User Groups include: Students, Recreation - with park or facility, Shoppers, Transit, Community Facility) A school can also be identified for recreation users. The evaluator should place a “check” mark next to each user group found in the project area in the response column, and tally the total number of checks to determine the number of user groups.

Potential for Pedestrian and Bicycle Activity account for 31% (max. 31 points) of the total benefits score. See Section IV for a discussion of the process utilized to determine appropriate points (max. – min.) for the benefits criteria.

Geographic Distribution

The diversity of land uses and density of hamlets throughout the Town may place some areas of the Town at a competitive

3%	<u>Geographic Distribution</u> The diversity of land uses and density of hamlets throughout the Town may place some areas of the Town at a competitive disadvantage when evaluating the merits of proposed projects.	Review/identify the recent history of public investment (Federal, State, County,Town) of pedestrian and/or bicycle accommodations within 1-mile radius of the proposed project area within the past 5 years. The purpose is to achieve some balance in the geographic distribution of public pedestrian and bicycle investment in the Town.	Project completed: 5+ years ago (8 points) 4 years ago (6 points) 3 years ago (4 points) 2 years ago (2 points) 1 year ago (0 points) (from actual completion date) (max 8 points)	____ Years Ago	

disadvantage when evaluating the merits of proposed projects. The evaluator should review/identify the recent history of public investment (Federal, State, County,Town) of pedestrian and/or bicycle accommodations within 1-mile radius of the proposed project area within the past 5 years. The purpose is to achieve some balance in the geographic distribution of public pedestrian and bicycle investment in the Town.

HOW TO:

To determine if a completed bicycle and pedestrian project is located within a 1-mile distance of the proposed project, utilize the Town's Geographic Information Systems program, ESRI ArcMap. The first step is to identify the project roadway and create a 1 mile buffer around the project area. The second step is to identify bicycle and pedestrian projects that were completed in the general project area by consulting with the Town Highway and/or Public Works Departments. Project completion dates can also be identified by these Departments.

Geographic Distribution accounts for 8% (max. 8 points) of the total benefits score. See Section IV for a discussion of the process utilized to determine appropriate points (max. – min.) for the benefits criteria.

Total Benefits Score

The maximum benefit score, based on the points provided, a project can receive is 110 points. Realistically, evaluators should be aware that the maximum 110 points is not achievable based on land use characteristics in the Town. For example, the Town does not have a roadway that reflects a principal arterial (high volume), with a high speed limit, access to seven or more destinations, surrounded by a high density area, etc. These are some of the characteristics needed to achieve the maximum 110 points. This is because the destinations and neighborhoods in Town have grown in an environment that encourages human scale development, which are attractive to pedestrians and bicyclists.

(PAGE INTENTIONALLY LEFT BLANK)

Town of Bethlehem Evaluation Process for New Pathway Investment					
BENEFITS EVALUATION TABLE					
PROJECT NAME:		FINAL			
As of 10/26/2010					
Weight	Criteria	Measure	Rating	Response	Points
	<u>Bicycle and Pedestrian Priority Network Map or Town Plan/Study</u>	Review map to determine if proposed project is located on the bicycle and pedestrian network and/or if project is recommended in Town Plan/Study. If either is yes, proceed to additional evaluation criteria listed below.	Yes No Project is recommended in Town Plan/Study (BONUS 10 points)		
39%	<u>Safety</u> This element looks at several factors that contribute to roadway safety (potential for accidents between vehicles and bicyclists/pedestrians). Four roadway characteristics contribute to the potential number and severity of bicycle and pedestrian accidents. They include vehicular volume, speed, crossings and intersections, and access conflicts. The lack of existing pedestrian and bicycle accommodations contributes to safety, as well. <i>If project boundaries incorporate multiple roadway speeds and functional classifications, utilize higher speed and functional classification to apply points.</i>	Volume Roadway volume directly relates to the users exposure, and affects the quality of the roadway environment for pedestrian and bicyclists, especially when proper accommodations for these users are absent. Review Town of Bethlehem Roadway Functional Classification Map to determine the functional classification of the roadway proposed for a bicycle and pedestrian improvement project. <i>(If evaluator perceives that roadway function does not reflect typical AADT, review AADT to apply points).</i> WEIGHT:18%	Arterial (principal and minor) - AADT >= 8000 (7 points) Urban Collector – AADT 2000 – 7999 (5 points) Rural Collector – AADT 500 – 1999 (3 points) Local Residential – AADT <= 1999 (0 point) <i>(max 7 points)</i>		
		Speed Speed is directly related to severity of the accident. Review the posted speed of the roadway proposed for a bicycle and pedestrian improvement project. <i>(If evaluator perceives that operating speed does not reflect posted speed, review operating speed to apply points).</i> WEIGHT: 13%	Speed 50+mph (5 points) Speed 41 - 49 mph (3 points) Speed 31 – 40 mph (1 points) Speed 25 – 30 mph (0 point) <i>(max 5 points)</i>	____MPH	
		Crossings and Intersections The quantity and complexity of a roadway crossing directly relates to exposure for potential accidents. Review the number, and complexity of the roadway crossing(s) in the project area. (Complex crossings may include major principal arterials, such as Delmar Bypass, Route 9W, active at-grade railroad). Do not include intersections at the project boundaries. <i>Commercial driveways that are accessed by traffic signals are treated as intersections.</i> WEIGHT:23%	9+ Intersections (9 points) 6 – 8 Intersections (6 points) 3 – 5 Intersections (3 points) 0 – 2 Intersections (0 points) Add 1 point for each complex intersection crossed. <i>(max 9 points + complex intersections)</i>	____INTERSECTIONS	
		Access Conflicts High volume, multiple driveways create a greater exposure and risk for accidents to the pedestrian and bicyclist. Review the access conflict loctions within the project area. If the project is located in a commercial Zoning District (General Commercial, Heavy Industiral, Rural Light Industrial, MED) only account for commercial driveways. If the project is located in a residential Zoning District (Res. A, B, C , Core Residential, Rural, Residential Large Lot, Multifamily, PDD) only account for residential driveways. If the project is located in a mixed use Zoning District (Hamlet, Commercial Hamlet, Rural Hamlet, Rural Riverfront) or traverses several Districts review the predominate land use in the project area; to determine which driveway to consider. <i>Commercial driveways that are accessed by traffic signals are treated as intersections.</i> WEIGHT: 15%	<u>Commercial Driveways Crossed</u> 16+ Driveways (6 points) 11 – 15 Driveways (4 points) 6 – 10 Driveways (2 points) 1 – 5 Driveways (1 points) <u>Residential Driveways Crossed</u> 50+ Driveways (6 points) 40 – 49 Driveways (4 points) 30 – 39 Driveways (2 points) 20 – 29 Driveways (1 points) >=19 Driveways (0 points) <i>(max 6 points)</i>	____DRIVEWAYS	
		Lack of Existing Pedestrian and Bicycle Accommodations Properly designed pedestrian and bicycle accommodations improve safety and reduce the risk of accidents. Review the project corridor to determine if pedestrian and/or bicycle accommodations exist. <i>Evaluator should utilize AASHTO and NYSDOT Guidelines/Standards to determine if accommodations are built to design standards.</i> WEIGHT: 31%	No Pedestrian/Bicycle Accommodations (12 points) Some Pedestrian/Bicycle Accommodations not built to design standards (6 points) Some - Pedestrian/Bicycle Accommodations built to design standards (3 points) Full Ped/Bike Accommodations built to design standards (0 points) <i>(max 12 points)</i>		
22%	<u>Destinations</u> The presence of destinations with a 1/2 mile of the project corridor directly influences the generation of pedestrian and bicycle trips. Typically, areas of diverse/multiple land uses will generate more pedestrian and bicycle trips than areas with homogenous land uses.	Destinations include Linkages (connections between existing facilities, not extensions), Hamlet Zoning Districts, Commercial Hamlet Zoning Districts, Recreation Areas (i.e., nature preserves, parks, schools), Schools, Albany County Rail Trail, Community Facilities (e.g., Town Hall, Post Office, Library, Religious Institutions, etc.) and Transit stops. <i>The same type of destination can only be counted once.</i>	7+ Destinations (22 points) 6 Destinations (18 points) 5 Destinations (15 points) 4 Destinatoins (12 points) 3 Destinations (9 points) 2 Destinations (6 points) 1 Destinations (3 Points) <i>(max 22 points)</i>	__Linkage __H District __CH District __Recreation __School __Community __Transit __Rail Trail	
31%	<u>Potential for Pedestrian and Bicycle Activity</u> Potential pedestrian and bicycle activity can be estimated based upon two factors: population density and potential users.	Population Density The higher the density (housing units per ¼ mile radius) the greater the likelihood a large number of pedestrians/bicyclists would be attracted to the pedestrian/bicycle facility. Review the housing density residing within ½ mile of the proposed project for pedestrian facility improvements.	>= 1750 housing units (15.5 points) 1400 - 1749 housing units (12 points) 1050 - 1399 housing units (9 points) 700 - 1049 housing units (6 points) 350 - 699 housing units (3 points) <= 349 housing units (0 points) <i>(max 15.5 points)</i>	____Housing Units	
		Potential Users Identify the potential user groups of the pedestrian and bicycle facility based on destinations that are located within or accessed by the project area. (User Groups include: Students, Recreation - with park or facility, Shoppers, Transit, Community Facility) A school can also be used for recreation.	5 users (15.5 points) 4 users (12 points) 3 users (9 points) 2 users (6 points) 1 user (3 point) <i>(max 15.5 points)</i>	__Students __Shoppers __Transit __Recreation __Community	
8%	<u>Geographic Distribution</u> The diversity of land uses and density of hamlets throughout the Town may place some areas of the Town at a competitive disadvantage when evaluating the merits of proposed projects.	Review/identify the recent history of public investment (Federal, State, County,Town) of pedestrian and/or bicycle accommodations within 1-mile radius of the proposed project area within the past 5 years. The purpose is to achieve some balance in the geographic distribution of public pedestrian and bicycle investment in the Town.	Project completed: 5+ years ago (8 points) 4 years ago (6 points) 3 years ago (4 points) 2 years ago (2 points) 1 year ago (0 points) <i>(from actual completion date)</i> <i>(max 8 points)</i>	____Years Ago	
SCORE LEGEND: ==>80: A, 65-79: B, 50-64: C, 35-49: D, <35: F				TOTAL BENEFITS SCORE	

V. Pathway Investment Scoring Matrix

Step 4 of the evaluation process for new pathway investment utilizes the pathway scoring matrix as illustrated below. The matrix was developed recognizing that the benefits of a project are more important than the cost. On a standard cost to benefit evaluation, costs are typically treated on an equal level to benefits. In the case of pathway investment, the goal is to fund projects that will have a high benefit to the community; and as such, benefits have been weighted higher than costs. For example, if a project receives a benefit score of ≥ 80 , (A) and costs $\geq \$1$ million the project would receive a total score of B, reflecting benefits as carrying a greater weight in the total score.

HOW TO: The evaluator shall apply the project cost estimated in Step 2, to the Town Share Cost column and then apply the benefits score calculated in Step 3 to identify the Total Project Score.

Pathway Scoring Matrix

		Benefit Score				
		≥ 80	65 - 79	50 - 64	35 - 49	< 35
Town Share Cost		A	B	C	D	F
Cost $< \$100k$	A	A	B+	C+	D	D
$\$100k \leq \text{Cost} < \$400k$	B	A-	B	C+	D	F
$\$400k \leq \text{Cost} < \$700k$	C	B+	B-	C	D	F
$\$700k \leq \text{Cost} < \$1M$	D	B+	C+	D	D	F
Cost $\geq \$1M$	F	B	C+	D	F	F

Leverage Opportunities

Step 5 of the evaluation process for new pathway investment is applied based on leveraging funding opportunities. Section VII-Funding Sources, provides a comprehensive list of Federal, State, and other grant opportunities available to the Town. If a Federal or State (or other) grant opportunity is identified, the evaluator shall only utilize the Town's share cost. For example, if a proposed Town pathway project has a total cost of \$500,000.00, without a grant opportunity the project would receive a C grade for town share cost. Accounting for a grant opportunity that includes 80% of the total project cost, the Town's share would be \$100,000.00 and would receive a B grade. If the project had a high benefits score (A, B, or C grade) the leveraging opportunity would result in a higher total score.

VI. Establishment of Benefits Criteria Point System

A point system for the benefits criteria was established with assistance from Town Public Works, Planning, and Parks and Recreation Department representatives staffed to the PaTHs Committee, as well as a Town Engineering Division representative, and three members of the PaTHs Committee. This subgroup of the PaTHs Committee conducted a weighting (ranking) exercise to determine the value of each benefits criteria. The subgroup recognized that the four benefit criteria (Safety, Potential for Pedestrian & Bicycle Activity, Destinations, and Geographic Distribution) and associated sub-criteria for safety (Volume, Speed, Crossings and Intersections, Access Conflicts, and Lack of Existing Pedestrian and Bicycle Accommodations) should not be equally reflected in the point system; and therefore, a weighting (ranking) exercise was conducted to determine the value of each criteria. Subsequently, the values that were identified are reflected as maximum points in the benefits evaluation table. Following the establishment of a maximum point value, successive points were applied at appropriate intervals based on the criteria's measurements (i.e. speed intervals, number of destinations, roadway functional classification, etc.)

The subgroup conducted two benefit weighting (ranking) criteria exercises, the first was for the major criteria (Safety, Potential for Pedestrian & Bicycle Activity, Destinations, and Geographic Distribution) and the second was for the subcriteria associated with Safety (Volume, Speed, Crossings and Intersections, Access Conflicts, and Lack of Existing Pedestrian and Bicycle Accommodations).

Benefit Criteria Weighting Exercise

Major Criteria Weighting

The Town's Public Works Department has had success in utilizing a weighting (ranking) exercise known as a "Pairwise Exercise" for evaluation of its assets. As such, the Deputy Commissioner of Public Works (also a member of the Committee) facilitated the pairwise exercise. The pairwise exercise allowed the subgroup to make several small decisions when comparing the value of the criteria against each other. As a result, the pair-wise ranking exercise revealed the priority (weight/points) which the subgroup attached to the criteria

The exercise included the use of the following statement:

"When the Town is investing in a pathway project, (criteria), is _____, compared to (criteria)".

- 5. Much more beneficial
- 4. Slightly beneficial
- 3. Equally beneficial
- 2. Slightly less beneficial
- 1. Not important

As applied to the statement, each criteria was compared to each other, and for example read as follows:

"When the Town is investing in a pathway project, SAFETY is _____, compared to DESTINATIONS".

- 5. Much more beneficial
- 4. Slightly beneficial
- 3. Equally beneficial
- 2. Slightly less beneficial
- 1. Not important

Town of Bethlehem
Evaluation Process for New Pathway Investment
Procedures/Users Guide
FINAL – OCTOBER 26, 2010

The results of the pairwise ranking exercise for major criteria are provided in the following table. Note that the values for the cells shown in grey are inverses from cells show in white.

	Safety	Destinations	Potential for Pedestrian & Bicycle Activity	Geographic Distribution	Sum
Safety		5	4	5	14
Destinations	1		2	5	8
Potential for Pedestrian & Bicycle Activity	2	4		5	11
Geographic Distribution	1	1	1		3

The exercise revealed that Safety benefits of a pathway investment project is the most important (highest ranking) criteria. As a result, safety received 39% of the total benefits score. This is followed by Potential for Pedestrian & Bicycle Activity (31%), Destinations (22%), and Geographic Distribution (8%) in ranking order.

Safety Subcriteria Weighting

Similarly, a pairwise ranking exercise was conducted using the same process and sample statement, as described above, for the safety subcriteria (*Volume, Speed, Crossings and Intersections, Access Conflicts, and Lack of Existing Pedestrian and Bicycle Accommodations*). The ranking results are listed in the following table:

	<u>Vehicular Volume</u>	<u>Speed</u>	<u>Crossings & Intersections</u>	<u>Access Conflicts</u>	<u>Lack of Existing Accommodations</u>	<u>Sum</u>
Vehicular Volume		4	2	3	2	11
Speed	2		2	2	2	8
Crossings & Intersections	4	4		4	2	14
Access Conflicts	3	4	2		1	10
Lack of Existing Accommodations	4	4	4	5		17

The exercise revealed that Lack of Existing Accommodations is the most important (highest ranking) criteria, and received 29% of the available safety criteria points (max. 12 points). This is followed by *Crossings and Intersections, Volume, Access Conflicts, and Speed* in ranking order.

As a result of the pairwise ranking exercises, the maximum points were applied to the criteria as follows:

Scoring System Based on Pairwise Ranking Exercise			
Criterion			Points
Safety			
Vehicular Volume			7
Speed			5
Crossings & Intersections			9
Access Conflicts			6
Lack of Existing Ped/Bicyclist Accommodations			12
Destinations			22
Potential for Pedestrian & Bicycle Activity			31
Geographic Distribution			8
Sum			100

VII. Funding Sources

The funding sources listed in the table below are referenced from the New York Bicycling Coalition and Village of Altamont Pedestrian and Bicycle Plan (Section 7.3), January 2009, prepared by Alta Planning + Design, with funding assistance from the Capital District Transportation Committee. These funding programs are applicable to either State, County, and Town roads.

FUNDING PROGRAM	REQUIREMENTS	CONTACT INFORMATION
NYSDOT/CDTC *Transportation Enhancements Program (TEP)	Offer communities the opportunity to expand transportation choices. Town of Bethlehem

Complete Streets Resolution

Climate Smart Community Resolution

RESOLUTION NO. 30

TOWN BOARD
TOWN OF BETHLEHEM
RESOLUTION
COMPLETE STREETS

WHEREAS, a goal of the Town of Bethlehem Comprehensive Plan is to improve mobility – the ability of people, regardless of age and status, to engage in desired activities throughout the Town; and

WHEREAS, the Town of Bethlehem Comprehensive Plan recommends maintaining and enhancing bicycle and pedestrian connections within neighborhoods, and between neighborhoods and hamlet centers;

WHEREAS, the Town of Bethlehem has established a pathways committee (PaTHs 4 Bethlehem) to explore bicycle and pedestrian facility connections and address issues; and

WHEREAS, bicycling and walking are important forms of transportation and recreation in our community; and

WHEREAS, bicycling and walking contribute to health, fitness, neighborhood vitality, social interaction, and economic development; and

WHEREAS, the full integration of all modes in the design of streets and highways will increase the capacity and efficiency of the road network, reduce traffic congestion by improving mobility options, limit greenhouse gas emissions, and improve the general quality of life; and

WHEREAS, educating the public about safety, health and mobility are part of being a quality community; and

WHEREAS, Complete Streets are defined as facilities that are designed and operated to enable safe and efficient access for all users. Persons with disabilities, pedestrians, bicyclists, motorists and transit riders are able to safely and efficiently move along and across a complete street.

NOW, THEREFORE, BE IT RESOLVED, the intent of the Town of Bethlehem Complete Streets Policy is to recognize bicyclists and pedestrians as equally important as motorists in the planning and design of all new street construction and street reconstruction undertaken by the Town.

BE IT FURTHER RESOLVED, it is also the intent of the Town of Bethlehem Complete Streets Policy to recognize that local Town streets with low vehicle volumes and slow travel speeds safely and efficiently accommodate bicyclists and pedestrians. However, principal Town roads that are characterized as having high vehicle volumes and high travel speeds, and are important for bicycle and pedestrian travel to access and connect to destinations in and adjacent to the Town, shall be considered for Complete Streets treatment.

BE IT FURTHER RESOLVED, that the Town Board hereby resolves to establish a Complete Streets Policy as follows:

Engineering: The Highway Superintendent shall consider the safe and efficient accommodation of bicyclists and pedestrians in all new street construction and street reconstruction undertaken by the Town of Bethlehem.

1. In addition, where the need for bicyclist and pedestrian facilities has been established or is defined in Town planning documents, including but not limited to the Bicycle and Pedestrian Priority Network identified by the PaTHs 4 Bethlehem Committee, the Highway Superintendent shall consider the addition of safe bicyclist and pedestrian facilities in new street construction and street reconstruction undertaken by the Town of Bethlehem. The addition of the bicyclist and pedestrian facilities shall be consistent with the scope of the improvement project, context sensitive to the surrounding environment, and shall not be disproportionate with the cost of the larger project.

2. Bicyclist and pedestrian facilities are defined as improvements that are above and beyond the normal space, surfaces, pavement markings, and signing that would routinely be incorporated into street design and maintenance for the accommodation of bicyclists and pedestrians. These facilities shall include but not be limited to sidewalks, curb cuts and ramps, marked crosswalks, pedestrian actuated signals, paved shoulders, bicycle route signing, bicycle lanes, bicycle parking facilities, and shared use paths.

3. Bicycle and pedestrian facilities may be planned, designed, developed and maintained in accordance with guidelines adopted by the United States Department of Transportation (USDOT), New York State Department of Transportation (NYSDOT), and the American Association of State Highway and Transportation Officials (AASHTO) or other guidelines approved by the Town of Bethlehem.

4. Whereas, if the Highway Superintendent determines that the inclusion of bicycle and/or pedestrian facilities are unable to be accommodated on a roadway or within Town right-of-way proposed for construction or reconstruction, he/she shall provide said determination in writing, with supporting documentation, to the Town Board for their information. Education and

Encouragement: The Town supports the promotion of bicycling and walking for health, fitness, transportation and recreation through events, programs and other educational activities, which benefit residents, students, businesses and visitors of all ages and abilities. These activities can be coordinated with the PaTHs 4 Bethlehem Committee, other Town Committees and Departments, local bicycle clubs, schools, health organizations and other partners.

Furthermore, the Town encourages the NYSDOT and Albany County to consider a Complete Streets approach when constructing or reconstructing their respective streets in the Town.

Enforcement: The Town will provide a balanced enforcement of the New York State Vehicle and Traffic Law for motorists, pedestrians and bicyclists. This will include enforcement of pedestrian's right-of-way in crosswalks, bicyclists riding with traffic and all modes sharing the road safely.

Additionally, the Town may consider the use of traffic calming applications as an alternative to bicycle and pedestrian facilities. Traffic calming applications help to physically or psychologically calm motor vehicle traffic behaviors, thereby aiding in the enforcement of a safe environment for bicycle and pedestrian travel.

On a motion by Mrs. Dawson, seconded by Mr. Kotary, and by a vote of 5 for, 0 against and 0 absent, this RESOLUTION was adopted on August 12, 2009.

TOWN OF BETHLEHEM

445 DELAWARE AVENUE
DELMAR, NEW YORK 12054

RESOLUTION NO. 20

RESOLUTION IN SUPPORT OF CLIMATE SMART COMMUNITY

WHEREAS, the Town of Bethlehem believes that climate change poses a real and increasing threat to our local and global environments; and

WHEREAS, the effects of climate change may negatively impact our infrastructure, economy, farms, food supply, ecological communities; encourage the spread of invasive species and exotic diseases; reduce drinking water supplies; and pose health threats to our residents; and

WHEREAS, we believe that our response to climate change may result in new opportunities that could save money, encourage the growth of livable, energy-independent and secure communities, vibrant innovation economies, healthy and safe schools, and resilient infrastructures; and

WHEREAS, we believe the scale of greenhouse gas emissions reductions required for climate stabilization will require sustained and substantial efforts; and

WHEREAS, we believe that even if emissions were dramatically reduced today, communities would still be required to adapt to the effects of climate change for decades to come,

IT IS HEREBY RESOLVED that the Town of Bethlehem, in order to help reduce greenhouse gas emissions and adapt to a changing climate will, to the extent that actions can be taken that are consistent with good fiscal management of Town and taxpayer resources and are consistent with the Town's plans and goals as reflected in the Town Comprehensive Plan, pledge to take actions consistent with the goals outlined below.

1. The Town shall set a goal of combating climate change by participating to the extent practical and fiscally prudent in programs designed for Climate Smart Communities.
2. The Town shall investigate programs to reduce greenhouse gas emissions.
3. The Town shall take steps to decrease energy demand for local government operations, with a goal of reducing consumption of gasoline and reducing electricity use by 15 percent from projected levels by no later than 2015.
4. The Town shall encourage the use of renewable energy for local government operations.

TOWN OF BETHLEHEM

445 DELAWARE AVENUE
DELMAR, NEW YORK 12054

5. The Town shall investigate opportunities to realize benefits of additional recycling programs and other climate smart solid waste management practices.
6. The Town shall, to the extent consistent with the Town's Master Plan, promote climate protection through its community land use planning.
7. The Town shall, to the extent practical and fiscally prudent, investigate, consider and plan for the effects of unavoidable climate change on Town infrastructure.
8. To the extent practical and fiscally prudent, the Town shall support green economy innovations.
9. The Town shall endeavor to inform the public about steps that they can take to reduce energy use and reduce climate change.
10. The Town recognizes that research and policy on climate protection are constantly improving and evolving, and shall endeavor to remain updated on steps that the Town can take to reduce adverse climate impacts.

The foregoing resolution was presented for adoption by Mr. Kotary, seconded by Mr. Hennessey and passed by the following vote:

Ayes: Mr. Cunningham, Mr. Kotary, Mrs. Dawson, Mr. Hennessey.
Noes: Mr. Messina.
Absent: None.

and benefits, of a new pathway investment project, and the guide identifies various funding sources. As a result of the evaluation process, the Town could develop a tiered list of projects (Tier I, II, III) based on high, medium, and low evaluation scores. This process provides flexibility for the Town to choose among several projects within a Tier I list in response to a grant solicitation. While the Town's current practice is for professional staff (Engineering, Planning, and Highway Departments) to identify projects to address grant solicitations, up until this point there has been no formal process in evaluating the merits of a proposed project. The evaluation process is intended to be used on new pathway investment projects located within existing public right-of-way (State, County, Town roads).

The 5 step evaluation process is as follows:

- Step 1) Screen projects based on Priority Network, and/or Recommendation of Town Plan/Study
- Step 2) Estimate Cost of the Project
- Step 3) Evaluate Project Benefits based on Benefits Evaluation Table
- Step 4) Calculate Project Score based on Pathway Scoring Matrix
- Step 5) Leverage Opportunities (Recalculate score based on assistance from non-town funding source)

Recommendations

The Committee provides the following recommendations to address bicycle and pedestrian mobility in the Town:

Short Term (0- 6 months)

1. Schedule Public Meeting for Fall 2010 - The Committee would schedule a public meeting in the Fall 2010 to present the new pathway investment evaluation process, and Priority Network Map to the public in an effort to receive public comment. The Committee would then incorporate the public comments in the evaluation process, and resubmit to the Town Board for approval.
2. Establish PaTHs 4 Bethlehem Committee as a standing committee – When established in March 2009, the PaTHs 4 Bethlehem Committee was not specifically defined as a standing committee nor assigned appointment terms. It is recommended that the PaTHs 4 Bethlehem Committee be adopted as a standing committee by resolution and assign committee terms. Typically, other standing committees in Town have a defined term of service staggered in length among the various members. The Committee can prepare a resolution for the Town Board that identifies the importance/purpose of the PaTHs Committee, outlines role, goals, and tasks, and encourages bicycle and pedestrian mobility.

Long Term (following completion of short term items)

1. Establish a Bicycle and Pedestrian Program addressing the 3 E's, Engineering, Education, and Enforcement, for bicycle and pedestrian mobility – The Committee could work towards the development of this broader program to address bicycle and pedestrian mobility in the Town. (The 3 E's approach to bicycle and pedestrian mobility are recommended in the NYSDOT 2010 Strategic Highway Safety Plan, and the Governor's Traffic Safety Committee 2010 Highway Safety Strategic Plan.)

Engineering –

- Develop a tiered (Tier I, II, III) bicycle and pedestrian project list
Utilize Committee's and public's knowledge of existing pedestrian and bicycle accommodations and develop a potential tiered projects list. Apply the evaluation process for new pathway investment to the projects list, which will establish a tiered ranking of projects. Benefits to this exercise include: a) Provide Town Staff with immediate project choices should funding becoming available; b) Demonstrate the Town is responsive to residents' concerns and

comments; c) Establish and maintain an awareness of need for pedestrian and bicycle improvements in the Town.

- Explore the establishment of a process for investment in the maintenance of existing pathways. The establishment of an evaluation process for new pathway investment identified the need for a process to fairly review and prioritize maintenance investment of existing pathways. The exploration of this process should be in conjunction with the Highway Department and their current approach of periodically evaluating, maintaining, and rehabilitating the existing Town highway system. It would also be consistent with the Town's Complete Streets Resolution.
- Research pathway funding practices/programs of other New York State and national municipalities
Examine how other municipalities in New York State and across the country (as legally applicable) fund pedestrian and bicycle programs, such as through Town funds, grant opportunities, land use review process (i.e. mitigation fund), etc.

Education-

- Conduct/Promote education activities regarding bicycle and pedestrian mobility
This element could involve the dissemination of information and announcement of activities to help educate pedestrians, bicyclists and motorists about roadway safety. The Committee would help spearhead some of these programs, and provide assistance to those which already exist such as the Parks and Recreation Bike Expo Event. New activities that the Committee may provide assistance include Ride Your Bike to Work Day, and a Walking School Bus Program (leadership by School Districts). There would be more of a concentration within the Committee to focus on public relations and social networking in order to promote and conduct these educational programs and activities.

Enforcement-

- Assign a Liaison from the Police Department to the Committee
Additional attention and insight is needed regarding enforcement. Ideally, assigning a Liaison from the Police Department to the Committee would further understanding of the Department's role regarding bicycle and pedestrian mobility (i.e. enforcement of the rules of the road for pedestrians, bicyclists, and motorists). It is envisioned that current Town Staff assigned to the Committee would correspond and/or serve as the channel between the Police Department Liaison and Committee should enforcement discussions arise.
- Review Town Bicycle Ordinance – Town Code Chapter 46
Review Town Bicycle Ordinance – Chapter 46 for consistency with current New York State Vehicle and Traffic Law, and Town practices.

Ongoing

- Revisit the Bicycle and Pedestrian Priority Network Map on a yearly basis - The Committee recognizes that as the Town develops, pedestrian and bicycle needs and destinations may change. As such, the Bicycle and Pedestrian Priority Network Map should be reviewed at minimum on an annual basis to determine the addition of roadways. This would also entail development of a tracking system (or log) of bicycle and pedestrian accommodation project requests identified by local residents during Committee or other public meetings.
- Engage various Town constituencies regarding bicycle and pedestrian mobility
Engage Town constituencies such as the business community, not-for-profits, open space organizations, civic groups, etc., to better understand bicycle and pedestrian mobility needs in the Town. Participation by these groups in either educational events or assistance to help

accommodate bicyclists and pedestrians (i.e. bike racks, path connections, etc.) could further encourage these modes of transportation.

Next Steps

When employed together, a program that considers **E**ngineering and desires to **E**ducate and **E**nforce the rules of the road, would further help the Town of Bethlehem distinguish itself as a welcoming community for safe and efficient pedestrian and bicycle travel. Such a program would also implement the pedestrian and bicycle mobility recommendations of the Town's Comprehensive Plan.

The Committee recommends the following actions by the Town Board and next steps for the Committee:

- August 25, 2010: Committee provides presentation of Accomplishments, Recommendations, and Next Steps to the Town Board
- August 25, 2010: Town Board directs the Committee to implement the Short Term Recommendations (listed above)
- September/October 2010: Committee holds public meeting to present Evaluation Process and Bicycle and Pedestrian Priority Network
- October/November 2010: Committee revises Evaluation Process, and Bicycle and Pedestrian Priority Network (as necessary) based on public meeting comments. Committee prepares PaTHs 4 Bethlehem Committee Resolution to establish the Committee as standing committee. All three items are forwarded to the Town Board for review/approval at November/December 2010 Town Board meeting.
- November/December 2010: Town Board considers action on Evaluation Process, Bicycle and Pedestrian Priority Network, PaTHs 4 Bethlehem Committee Resolution, and directs Committee to implement Long Term Recommendations (listed above)
- January 2011: Committee begins work on Long Term Recommendations
