

NOTICE UPDATE

Road work on Kenwood Ave south of the Four Corners starting Monday, Nov 1

- Kenwood Ave south of the Four Corners (**eastbound AND westbound**) will be closed and traffic detoured
- Delaware Ave will have a slight lane shift but **no lane closures**

WHY

The sewer main under Kenwood Ave was installed in 1929. A section near the Great Wall of China restaurant and the 4Corner Laundry Room is collapsing, causing dips in the road.

WHAT'S HAPPENING

We have excavated and replaced the damaged section of sewer main. Next, we will line the pipe from the Four Corners south about 300 feet to minimize the likelihood of future breaks and problems. This activity will require the temporary closure of both lanes on Kenwood Ave.

TRAFFIC

- **Delaware Ave:** slight lane shifts but **no lane closures** are projected
- **Kenwood Ave north** of the Four Corners: no lane shifts or closures
- **Kenwood Ave south** of the Four Corners: **both the eastbound and westbound lanes will be closed during construction**

TIMELINE

This is a complicated project because the sewer main is deep and there are underground gas and communication lines near it.

- **Start Date:** Monday, Nov 1
- **Projected End:** Sunday, Nov 14

QUESTIONS/UPDATES
